"Every school day is my favorite day of the year"

"My favorite part of the year is the fall. Everyone is pumped to be back in school!"

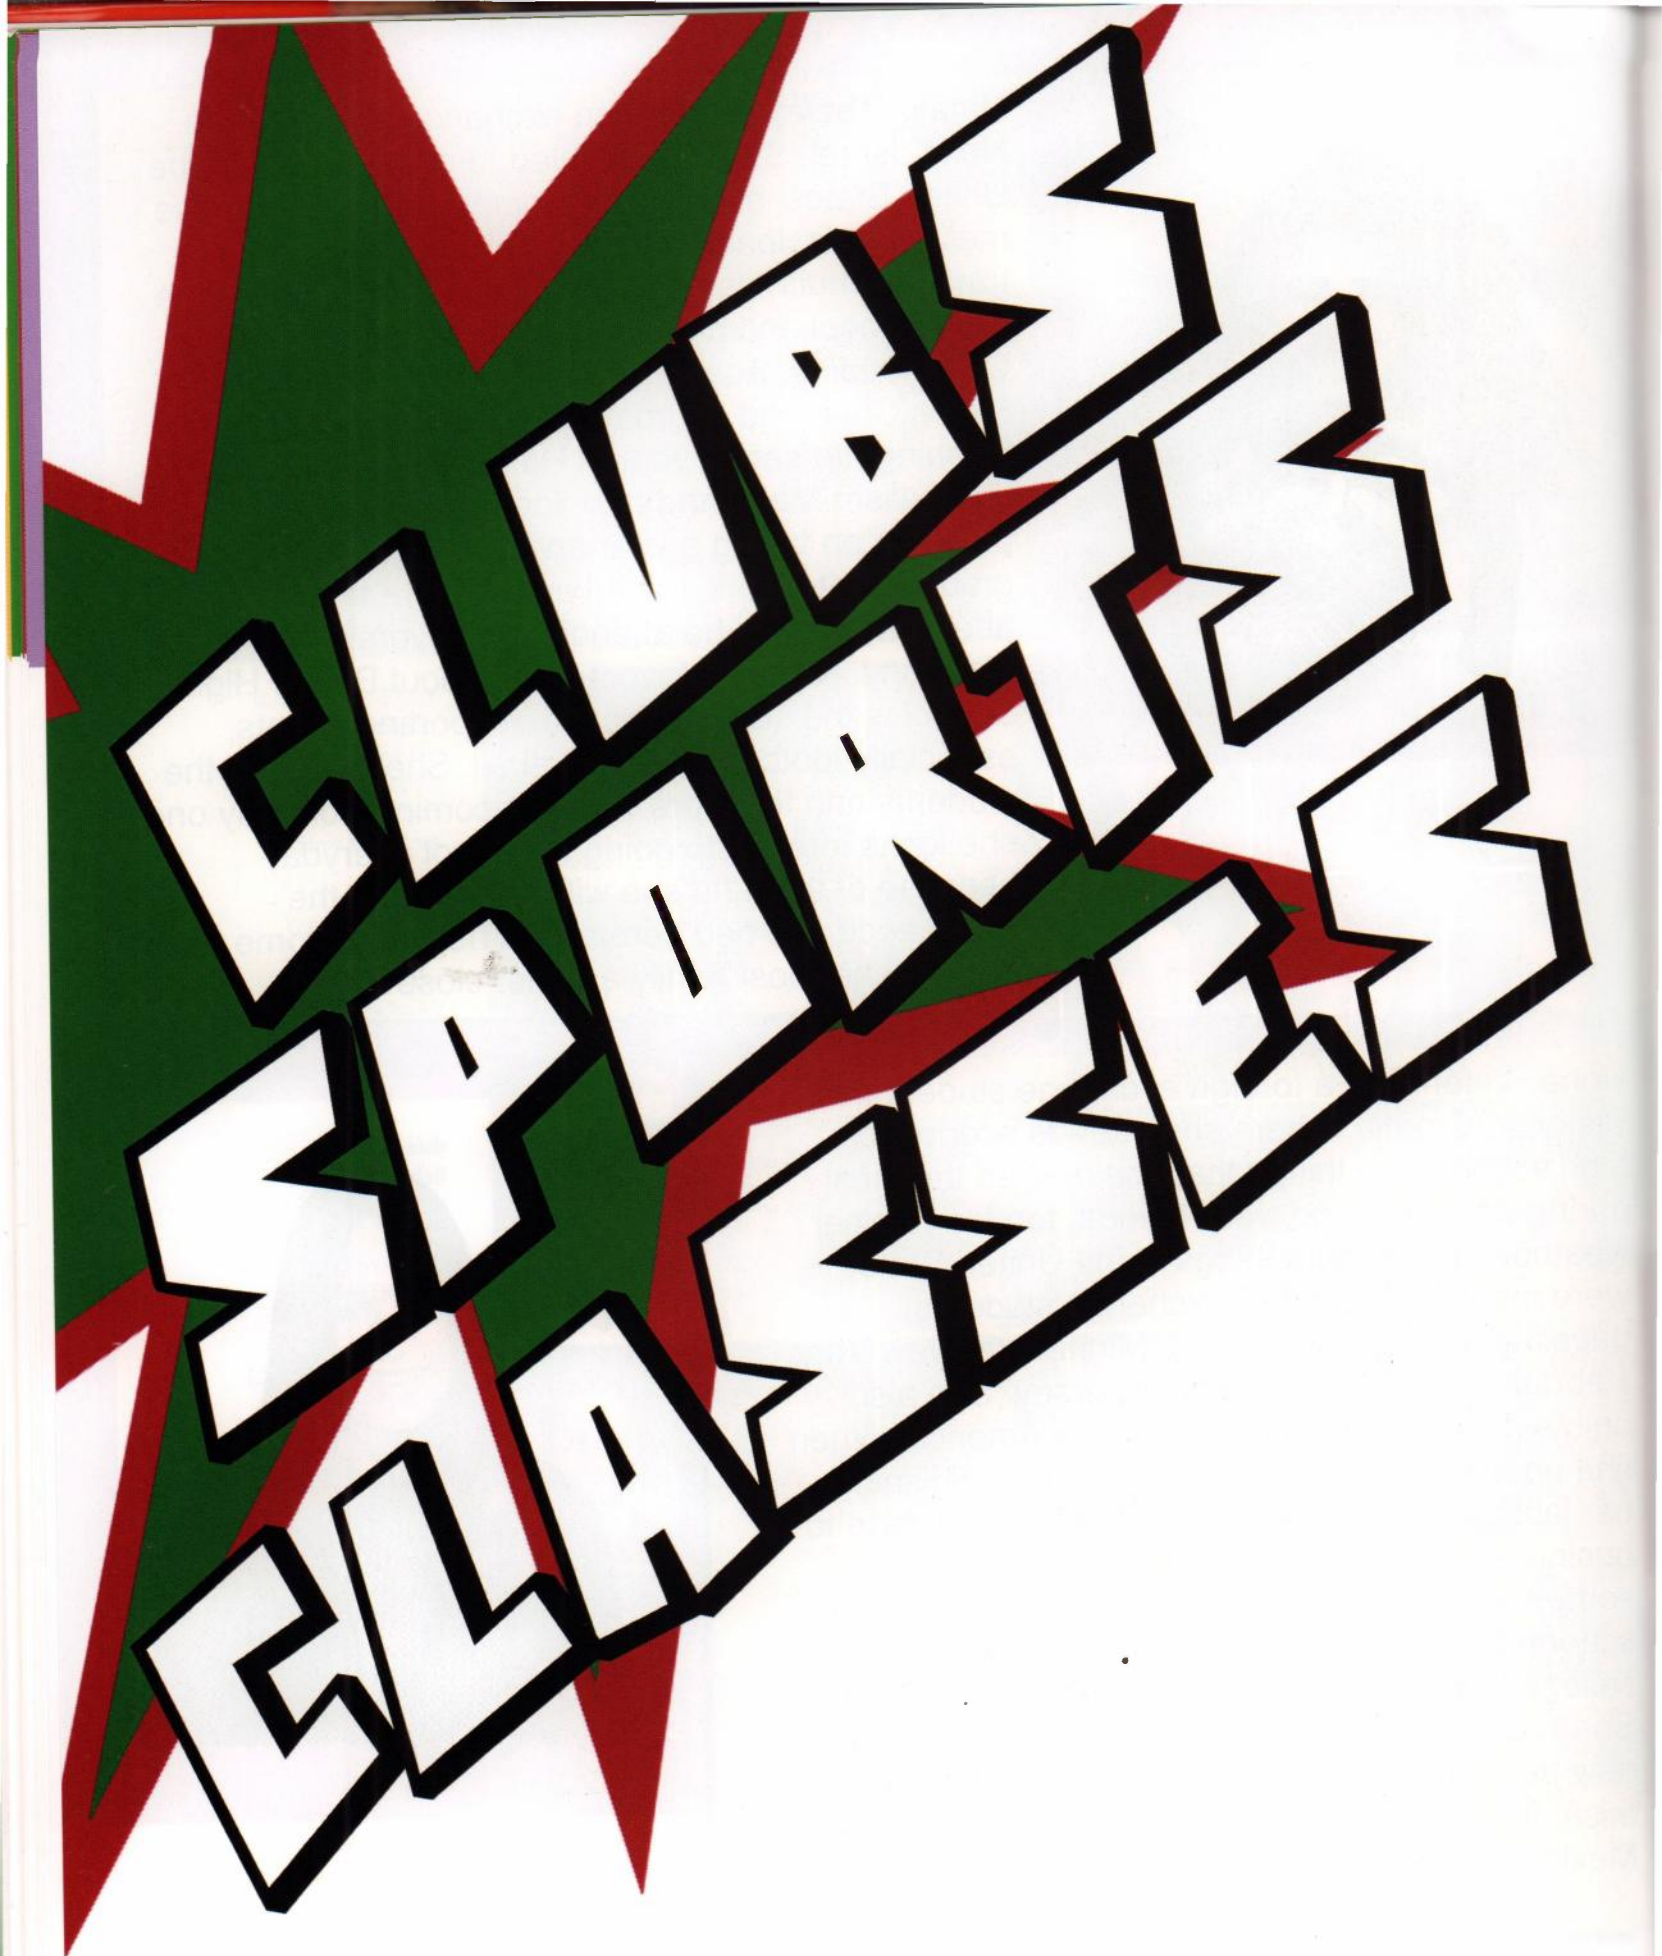

"My favorite part of the year would be spending time with all of the seniors"

Natalie J'beley is a foreign exchange student from Haifa, Israel. She has traveled to many places in the United States including Washington D.C. where she met Senator Joni Ernst. Natalie's main goal was to travel as much as possible. She is a junior at Boone High School and has participated in Winter Cheerleading, Academic Team, the Fall Musical, Swing Choir and Journalism. Natalie is planning on finishing her senior year in Haifa with a Media and Journalism Major and a Biology Minor. She is planning on taking a year and a half gap after graduating to work, travel and explore the world and after that she will be attending a university in Berlin, Germany. Natalie's favorite part about Boone High School is the student section at sporting events, especially football and basketball. She says that the students and teachers were welcoming from day one, she looks forward to going to school everyday because of that and she will never forget the experience she had here and is hoping to come back and visit her host family and her close friends.

Ivona Stefanac is a foreign exchange student from Bjelovar, Croatia, where she attends economics high school. The things that she missed the most during her exchange were friends, food, and nicer weather. Her favorite things in the United States were meeting with other exchange students, traveling to Washington D.C, Minnesota, New York, Nebraska, Colorado, and New Jersey. She also enjoyed trying the different foods in America. When she goes back home she is planning on finishing her last year of high school and going to college for business and management or public relations, something that is connected to her economics high school. She is also planning in her second year of college to do an exchange in Japan or Germany. She really likes to travel all over the world, meeting new people, and trying new things. Things she will miss the most about Boone are her host family, and Mexican food.
