[(WATCHER)] 'PAT'

Seniors

For four years now our voices
Have echoed through these rooms;
But now we are preparing
To cut from off our looms
The garments we've been weaving
Of threads of purest gold—
Our High School Education;
Its value is untold.
Life's canvas is before us,
Its colors yet unproved.
Life's road for us is waiting,
By our feet to be grooved.
And as we use our palette,
Our chisel, or our pen,
May we call forth a tribute
To true women and true men.
To old Boone High we've given
The best we have to give,
That the good name she merits
Will never fail, but live.
We charge our underclassmen,
To keep the records white,
That on the pages of this school
There is no blot or blight.
And though our load is heavy,
Or though fortune us may bless,
We never shall forget thee,
Our dear old B. H. S.

Under. Classmen

Juniors

Dear Seniors:—

Again the season has rolled around, when some one must go "Over the Top," and this time it is you. We are sad that you, the best class in years, must leave us, yet we are glad that the struggle for you is over. You are leaving this small world for a larger and better one, and we wish you success.

But, in the whirl of your own success, do not forget that there is a class of '19 yet in old B. H. S. Next year, when you are in New York, watch the headlines for the wonderful doings of the Senior Class. But, we have not waited until we are Seniors to prove our worth. We have been awake since the very day of our arrival. Why, when our little class team trotted out on the basketball floor, even the mighty Seniors cringed. And now, with much perseverance and practice, we have three members on the first team, and several first team football men. Seven of the Bumble "B" staff are ours. And, even its Editor-in-Chief, usually an educated Senior graces our class. We have not been slackers in our daily brain work, either. Do not all the details help to prove that we have every characteristic of the best class of all?

Grant us, oh Seniors, a little of your charity, and tell those various colleges, which you enter, not to be discouraged because of their dull students, for there is a brilliant little class back in old B. H. S., that will make things hum as soon as they get there.

And now, we must bid you a fond farewell.

Hoping to meet you all, many times, in the coming years,

Respectfully yours,

THE JUNIORS.

Sophomores

We come from states of every clime
A mighty band are we,
We're up and doing all the time,
We stand for loyalty.

Through many books we read and passed
We worked with heart and soul,
And realized our hopes at last,
Boone High School was our goal.

They called us Freshies when we came
The year Nineteen Sixteen.
But we were working on to fame,
And proved we were not green.

Then, when we'd worked hard for a year
Through Seniors' laughs and roars,
We grew to be regarded here
As worthy Sophomores.

That we are brilliant students all
We here at school have shown.
And, too, our boys in basketball
As champions are known.

As Sophomores, we're almost through
But, we shall never lag,
As Juniors, we'll be just as true
As to our dear old flag.

Freshmen

It was in the fall of 1917 that the Ship of '21 started out for a sail on the Sea of Life in Boone High School. 'Tis a sturdy ship, well built and strong, made to weather the roughest gale and conquer the largest waves. Sadiebelle Friedley steers the ship, with Bernice Myers' assistance, Frances Linebaugh collects the fees and counts the pennies. When the ship first began her journey the passengers realized that they must have co-operation among themselves.

The first of the great events of this year's journey was the Boys' Interclass Basketball. The Freshmen did not win the championship—far from it—but they did put up a splendid fight. It is evident that the boys on that team are not "has beens," but rather, are the future stars in Boone High's Basketball sky.

Next there was a party—a grand and glorious "bob" party. We all rode around a couple hours, singing and loudly proclaiming our loyalty to B. H. S., by shouting the good old yells. Then everybody went to "Jenny's" for an "eatless" banquet. After that some of us went to the Virginia, some to the Princess and some to other places of amusement. Naturally everyone went home then. 'Twas the end of a perfect party.

Last, but not least, came the Girls' Interclass series. The Freshmen team completely overcame the Sophomores but the Juniors defeated them after a hard fight. The Class of '21 is proud of her girls' team, just as she is proud of her boys'.

So the Ship sails on, the future hid behind a mist. But we are not afraid, for we shall work and play together until we land on the farther shore, on that far-away graduation day, in 1921.
