Freshmen

It was in the fall of 1917 that the Ship of '21 started out for a sail on the Sea of Life in Boone High School. 'Tis a sturdy ship, well built and strong, made to weather the roughest gale and conquer the largest waves. Sadiebelle Friedley steers the ship, with Bernice Myers' assistance, Frances Linebaugh collects the fees and counts the pennies. When the ship first began her journey the passengers realized that they must have co-operation among themselves.

The first of the great events of this year's journey was the Boys' Interclass Basketball. The Freshmen did not win the championship—far from it—but they did put up a splendid fight. It is evident that the boys on that team are not "has beens," but rather, are the future stars in Boone High's Basketball sky.

Next there was a party—a grand and glorious "bob" party. We all rode around a couple hours, singing and loudly proclaiming our loyalty to B. H. S., by shouting the good old yells. Then everybody went to "Jenny's" for an "eatless" banquet. After that some of us went to the Virginia, some to the Princess and some to other places of amusement. Naturally everyone went home then. 'Twas the end of a perfect party.

Last, but not least, came the Girls' Interclass series. The Freshmen team completely overcame the Sophomores but the Juniors defeated them after a hard fight. The Class of '21 is proud of her girls' team, just as she is proud of her boys'.

So the Ship sails on, the future hid behind a mist. But we are not afraid, for we shall work and play together until we land on the farther shore, on that far-away graduation day, in 1921.
