Once there was a little Freshman,
But his friends were very few,
For he thought that there was nothing
In Boone High but what he knew.

So his parents tried to help him,
With his Math, and he replied,
"Don't you think I'm smart enough?"
Still the teachers gave him "5".

He was always saying, "I know,"
Or, "You needn't tell me that."
But Alas! Alack! his head became
Much too large to fit his hat!

But still he thought he knew it all,
And gave advice and all of such.
While each one knew that while he raved,
He really didn't know so much.

So now dear little Freshmen
I hope you never will forget.
But let older folks advise you;
For you can yearn a few things yet?

Soft Collars Losing Popularity in England

LONDON—There has been quite a decline in the demand for soft collars. Men are going back to the stiff collar type. This has been brought about because the heads of the business houses feel that the soft collar variety is not in good form for business wear.

This is one good reason for wearing starched collars—but there is another reason even better. *To wear starched collars is good business.* Clothes may not make the man—but used rightly they will help. POPULAR YOUNG TEACHER BECOMES BUM.

Mr. Harry Gaines, the popular young teacher of B. H. S., has awakened to the call of spring.

The advent of spring sent the gypsy blood coursing thru the veins of Gaines, and he responded to the call of the wild. He has left a long blank space in the hearts of B. H. S. students.

Mr. Gaines, attired in new tweed knickers, carried a caddy bag well filled with sandwiches, while in his knap sack were thread and bent pins.

Mr. Gaines did not at first know how to leave town, his destination being Moingona, but he finally decided to bum a freight.

Promptly at the zero hour Gaines slid down the water-pipe and collapsed on a south-bound freight that was thundering by. His hands were well filled with the caddy bag and other implements, but he managed to ride the crumby without being discovered.

Day was breaking as the freight pulled into Moingona and Harry descended feeling

BARRETT PUBLIC BENEFACTOR.

Cecil Barrett confirmed the report that he has joined the ranks of the dollar a year men. Mr. Barrett proved himself to be of sterling worth to the community when he revealed the inner secrets of the debauchery of nicotine. Mr. Barrett's maidenly blushes will be long remembered as he marched forward to receive the bounty of the W. C. T. U.

It has been rumored that Mr. Barrett has willed his earnings of a life-time to the Whiskey Foundation Fund of the State Inebriate Asylum.

PARKER TO MARRY

It has been rumored that Mr. Isaac Parker, the local house wrecker, is about to marry. A reporter from this paper interviewed Mr. Parker who, after much coaxing, blushingly said that the happy day was to be June 8, the day that he graduates.

Ike also said that if he was charivaried he would have some real nice Speckled Trout cigars for the boys, and kisses for the girls.

BEHRENS GETS CRUSH ON BILL.

Miss Luella Behrens, local artist's model and impressario, recently gave out the report that her conquest of Rudy Valentine had come to naught.

In desperation Miss Behrens has turned her attentions to young Bill Hannum as a possibility. Miss Behrens affirms that with the addition of a foot or so in height and the years necessary to such an addition, Mr. Hannum will rank with the best of them. Mr. Hannum sto-

TAKEN FROM UNDER EYES OF WATCHFUL FACULTY

An event happened in B. H. S. not long ago that at first promised to be shrouded in deepest mystery. However, at the crucial moment the kidnapers were brought to light and nothing further was done about the matter.

To begin with, the girls of Miss Irvine's Normal Class had made paper dolls and had placed them on exhibition in various parts of the room. The paper children were of varied hue and evidently attracted the masculine eye of an economics class. The dolls were removed and used for book-marks and other degrading purposes.

Finally, when the mystery was the greatest the child nappers were apprehended and brought to task.

This being their first offense the nappers were let off with a mild rebuke from Judge Irvine and their promise never to do it again.

It might be mentioned that the children belong to Judith Williams and Ruth Hanson, while the kidnapers were W. Shaler, J. Sayre and T. Lynch.

STEELE TO GO ON STAGE.

It has been reported that Miss K. Steele, the local oriental dancer, has accepted a position as leading lady in the famous play, "Six Who Pass While the Lentils Boil."

Mr. Lorenzo Silliman will also have an important place in the play, while B. Holst will also interpret a part.

ally received this report, as the crush is mutual.

Mr. Hannum had nothing to vouchsafe on this report. His silence seems to be golden.

Question—Do you think
that Senior should re-
ceive a bonus?

Miss L. Rolston—I certainly do not think that the Seniors should receive a bonus. They should consider themselves mighty lucky to get out. In my opinion the thing would be preposterous.

Miss E. Maytag—Yes, the poor Seniors should have a bonus. After four years of trial and tribulations they will need a bonus to start them out in life. I will do all I can to help.

Mr. F. Daehler—No, I do not think that the Seniors should have the bonus. If the School Board decides to pay the bonus they will cut down on my department, then what would I do?

Mr. Waldman—No, I don't think the Seniors should receive a bonus. Better give it to the janitors, they have the most work to do. The Seniors should be glad enough to get their education, let alone having a bonus piled on top.

MANNY & BARRETT TO
PURSUE THEIR CALLING.

Messrs. Arno'd Manny and Cecil Barrett have verified the report that they will seek new fields to cultivate in the near future, in the far west.

The boys could not be talked into abandoning this trip, as they will receive board and room, thirty shekels per month and all tips, also the chance to see the world thru an elevator shaft.

It is an assured fact that the entire High School as well as the town will turn out to bid these boys God-speed, for it is known to all that these young candidates for The Society of the Itching Palm will leave a chasm in the hearts of many.

Don't Start Too Late

A MAN WAS RUNNING hard to catch a car. He was almost ready to swing aboard when the car started forward and the conductor closed the door.

A friend who was near him said: "John, you didn't run fast enough."

"Yes I did run fast enough," he replied, "but I didn't start soon enough."

And that will be the story of a lot of folks who put off saving money until they are well along in years. They may save as fast as they can but they will find they did not start soon enough.

A dollar saved by a child will grow into several dollars before old age comes. That is why we urge all young people to learn to save money.

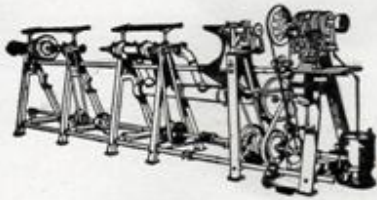

Think it over.

3. Doesn't little Willis Standley look simply ravishing in his dear little sailor suit? You'd never recognize him as the flyweight wrestling champion.

Dear Mr. Umbreit:

Just a few lines to let you know that I was glad to receive your kind letter. I thot you'd like to know that we played ball last Saturday, and that this is a very accurate description of it.

The game opened with Molasses at the stick, Smallpox catching, and Cigar in the box with lots of smoke. Horn was at first, Fiddle at second, backed by Corn in the field. He made it hot for umpire Apple, who was rotten. Ax came to bat and chopped Cigar, while Brick walked and Sawdust filled the bases. Hammer made a hit and Twenty made a score. Cigar went out and Balloon started to pitch but went up in the air. Then Cherry tried, but was wild. Old Ice kept cool in the game till he was hit by pitcher, then you should have heard Ice scream.

Cabbage had a good lead, but got stewed and was put out of the game. He was not the only one, for Umpire Apple got canned. Grass covered lots of ground, and the crowd cheered when Spider caught a fly. Bread loafed on third and tried to pump Organ, but Organ played fast and put out Light. In the 5th inning Wind began to blow about what he could do, and the way Steam roasted Peanuts was a fright. Knife was put out for cutting first base. In the 3rd inning Corn was shocked when Hammer made a hit. Trombone followed with a slide for home, but Meat was on the plate to put him out. Lightning pitched and struck two men; Door took his place and shut out the opposing team. One to Nothing. There was lots of betting on the game and Soop cleaned up the gang.

That's all that happened, Mr. Umbreit. I'll say that it 'was enough.

Harold Davis.

Judge—You are sentenced to hang by the neck until dead.
Prisoner—Aw! Judge, I believe you're stringing me.

A Jew, on arising one morning, found his wife dead. He immediately ran to the top of the stairs and called down to the hired girl, "Rebecca, Rebecca, cook only von egg dis morning."

Little Kid to L. Fisk—Say mister, may I watch your car?

Fisk—Beat it, kid, this machine won't run away.

Kid—Mebbe not, but I could tell you when it starts to fall apart.

Dud D.—I could die dancing, couldn't you?

Francis R.—No, there are more pleasant ways than being trampled to death.

Fridolf.—I bet I can make an uglier face than you can.

Ben. W.—Look at the start you have on me.

Lois S.—I would rather marry a gate-post than that man.

Thirza H.—Then your husband would be an awful stick.

Lois—Yes, but he'd be a good thing to tie to.

Porky L.—What kind of powder does your girl use?

George H.—Gosh, I don't know, talcum powder I guess.

Porky L.—Mine uses "Love Me." I ask her what kind she uses every time I go to see her and it gives me a swell chance.

Bob Jones—I saved a girl last night.

Parker—You saved a girl.

Bob—I did.

Ike—How?

Bob—Well, I had a date to take two girls to a dance last night, I couldn't take both so I saved one for tonight.

Miss Ford—Why was Noah the greatest financier?

John B.—I bite, why?

Miss Ford—He was able to float a company when the whole world was watered.

ACHIEVEMENT

The goal of every ambitious man and firm is typified in the rapid growth of the *Jahn & Ollier Engraving Company*—the universal esteem in which their art and plates are held by the large national advertisers—and the enviable reputation for prompt deliveries which they enjoy.

Delivering this same high quality and careful personal supervision to schools has built up for us the largest college and high school annual engraving business in America—400 books yearly.

Thirty thousand square feet of floor space (4 floors) and over two hundred and fifty skilled employees are required to meet the constant demand for "J&O" commercial photographs, art, color process plates and photo engraving (one complete floor is devoted to color process work).

Intelligent supervision of all work by many skillful office service men eliminates your troubles. *Sales service men sent everywhere.*

Explaining a geometry proposition is like winking at a girl in the dark; you know what you're trying to do, but no one else does.
