THE 1947 SCROLL

HONORS BOONE ★ ★ ★ ★ ★

Boone, Iowa, has been nationally designated Typical Mid-West City. The word "typical" denotes symbolism. To us, Boone is symbolic of our good homes, schools, and churches. She is a city of true homes; her educational institutions have helped us adjust ourselves to our present life situations and at the same time prepare us for the future; our churches and ethical organizations have given us a firm foundation for our faith. In appreciation of these things we, the class of 1947, sincerely dedicate this book to you, our home city,

America's Most Typical Midwest City

FOREWORD

Companionship, friendliness, sharing, membership
---all necessary factors in happy living---blend
into one great word, FELLOWSHIP.

Without it, teams, schools, cities, even nations
divide and fall; it is the bond in all human relationship.

Since time began, problems have been ironed
out only by pleasant fellowship; so must it be in
building future world peace---
the major problem confronting the youth of today.

This Scroll of 1947 has been formed to portray
a year of fellowship in music, sports, clubs,
and study at Boone High; and to the spirit of
fellowship, we dedicate it in the hope that these exper-
iences will remain a memory and
a guide in future living.

A BIG HELLO AND WELCOME TO THE CLASS OF 1947'S 50TH REUNION

Some of the Committee thought, that as Chairman of this reunion, I should write a brief note. Here goes--when we called our 1st meeting in 96, I had a few ideas--a 50 year Scroll, 50 year diploma, and etc. The Committee thought they were good ideas so your first letter asked for pictures and your story. I contacted the printer and found that it would be simpler to put it all on the computer. Next thing was to find someone with a computer and the abilities and time to do some 90 letters, plus lay-out, and a few extra pages. Several had computers but couldn't do all that. I had bought a computer 2 months prior and was informed that my machine would do all that was needed. I didn't know what I was getting myself into, but with lots and lots of advice and direction from several people who were willing to help set things up and show me just what to do, we got the ball rolling. Joanne Hines and Jeannine Orr did the typing of the stories, helped Pat Schroeder with the proof reading, arranging of pictures, alphabetizing, and all the many other things that were required. Art Sturtz and Jim Schroeder were also good help. Then I went back on the Floppy and put things together, and you now have the 50 year Scroll.

It has been enjoyable working on all the reunions. This one has taken more time, but been more satisfying. I have a good feeling about it. I hope all of you will enjoy it and will go home with many fond memories.

George and Bev Hagaman have done the decorations. They traveled all over to find just the right things. Pat Mallas and Betty Eastlund have done the picture gallery. Our whole committee did a wonderful job. I cannot begin to name all that have helped and I'm not going to try--one thing though, this could not have happened without the help and cooperation of each of you. I thank everyone that has worked on all the committees through the years.

I hope you all like the memorabilia coffee cup of the BHS 50th Reunion.

My thoughts are--I had most of the first 50, someone else can handle the next 50. I have had a ball doing these and hope you all have enjoyed them as much as we have in preparing them for you. Enjoy your 50th!

Thank you,

Vernon Moorman

REFLECTIONS FROM RALPH

It is hard to believe that this is our 50th anniversary from our graduation day from high school. I guess that means we are now considered survivors. Reflecting back we have seen many changes during those 50 years.

We were born before television, polio shots, penicillin, frozen foods, Xerox, plastics, contact lenses, frisbees, and the pill. We were born before radar, credit cards, ball-point pens, pantyhose, dishwashers, air conditioners, electric blankets, drip dry clothes, and before man walked on the moon.

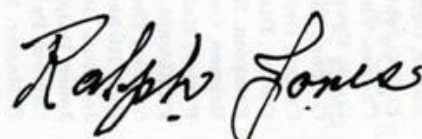

In our time, closets were for clothes not for "coming out" of. Designer jeans were scheming girls names Jean or Jeanne. We had never heard of FM radio, tape decks, C.D.'s, electric typewriters, artificial hearts, word processors, yogurt, guys wearing earrings, and girls wearing tatoos. A computer was a human person who was smart in math. Hardware were things sold in a hardware store, and software was ribbons, doilies and cloth material. A chip meant a piece of wood, and a mouse was a rodent. If you were on line it meant you got a phone that was not on a party line, or in some rural areas it meant you finally got electricity.

Made in Japan meant junk, and the term "making out" referred to how you did on your history exam. Pizza, McDonalds, tacos and instant coffee were unheard of. You could buy an ice cream cone at Boyds Dairy for a nickle and two scoops for a dime. You could make a phone call for a nickle, buy a coke, or enough stamps to mail one letter and two postcards. You could buy a new Chevy coupe for \$600, gas for 11 cents a gallon, but who could afford either one?

In our days smoking was fashionable, grass was something you mowed, coke was a cold drink, and pot was something you cooked in. A roach was a bug, and a crack was something you noticed when the plumber bent over to fix the leaky sink. Rock music was a mother's lullaby, and AIDS were helpers in the Principal's office. We were before the sex change and just had to do the best with what we had. I guess we were also the last generation that was so dumb to think you had to have a husband to have a baby.

No wonder we are so confused, but we survived! What better reason to celebrate a 50th reunion!

REFLECTING BACK

It is hard to believe that this is our 50th anniversary from our graduation day from high school. I guess it means we are now considered survivors. Reflecting back we have seen many changes during those 50 years.

We were born before television, the shot, penicillin, frozen food, rock & rollers, contact lenses, alcohol, and the pill. We were even before radar, credit cards, ball point pens, dryers, dishwashers, refrigerators, electric blankets, the dry cleaner, and before man walked on the moon.

In our time, shorts were for boys not for "coming out" and a sign for a young man was a screaming girl. We never heard of PM radio, tape decks, color televisions, typewriters, artificial hearts, word processors, yachts, gas wearing outfits, and getting a divorce. A computer was a main point of pride. Hardware were things that were rare and softwear was unknown. A clip meant a piece of wood and a mouse was a rodent. If you were a link it meant you got a message that was not on a party line, or in the room. It meant you finally got a letter.

In Memory of...

The joy of seeking classmates and the fun of finding them was mixed now and then with the sadness of discovering those who are deceased. It had to be, of course, for 50 years could not pass without taking with them some of our friends.

We share the loss of them, but we also share the hundred ways all of us were made bigger through knowing them.

I married Dick Pestotnik in 1948 and we have two daughters, a son and five grandchildren. Our oldest, Kathy, lives in Rochester, MN, and has three sons. Two are in college and the third is in high school. Connie teaches at City High and works part time at Mercy Hospital, both in Iowa City. Our youngest, John, and his wife Cindy have a seven year old son and a daughter, five. They live in West Des Moines.

While we lived in Boone I worked as a bookkeeper for Arnold Motors and the Boone State Bank. When Dick transferred to Des Moines, in 1967, I was administrative assistant to the County Superintendent of Schools.

In August of 1967 we moved to Ankeny and have lived here since. I headed up the payroll department at DMACC until we both took early retirement in 1984.

We have enjoyed every minute of retirement. We play lots of golf, do a lot of reading, winter in Corpus Christi and enjoy the grandkids.

Shortly after graduation I left Boone for a school for medical technology in Minneapolis. I worked as a technician for several years in Des Moines, Denver and Boone. My husband of 40 years, Ken Crouthamel, passed away in 1988 and George and I married in 1990. Between us we have six sons and 11 grandchildren. We divide our time between Iowa and Arizona and we are enjoying a wonderful life together.

While we lived in Boone I worked for Arnold Motors and the Boone State Bank. When Dick transferred to Des Moines in 1967, I was administrative assistant to the County Superintendent of Schools.

In August of 1967 we moved to Ankeny and have lived here since. I headed up the payroll department at DMACC until we both took early retirement in 1984.

After school I worked for Boone State Bank for 6 months. I then was employed at the telephone company in Boone for 11 years. John and I were married May 13, 1961. We moved to Des Moines, Iowa, where I worked another year for the telephone company.

We lived in Ankeny, Iowa for 2 years, moved to Brooklyn Ctr., Minnesota for 7 years, moved to Ralston, Nebraska for 3 years, then went to Houston, Texas. Moved back to Nebraska where we have been for the past 20 years. John retired in April of 96. We plan on traveling to see our children and grandchildren in Missouri and California.

My Husband worked at the Standard Oil office and we lived in Des Moines until 1960. We were transferred to Kansas City and lived there for 2 years. Returning to Des Moines my husband worked at the Standard Oil Terminal office and I remained at NWB.

I graduated from Iowa State College with BSEE in 1951. My first job took me to Hazeltine Electronics in Long Island, N.Y., where I worked on microwave transponders. I was drafted into U.S. Army Signal Corps, Ft. Monmouth, NJ, working on radar development for 2 years. I returned to ISC for graduate school, working at the Atomic Energy Commission on physics instrumentation for one year.

I moved to Palo Alto, CA in '56, and worked on Hi-powered tube research at the W. W. Hanson Microwave Lab at Stanford University. Soon after arriving in California, I met Joan, who I married in March 1957. In 1958, I joined Philco Corp., staying through numerous corporate changes (Philco-Ford, Ford-Aerospace, Loral Space Systems), and officially retiring in 1991. During these 34 years, my work first involved the development of key components for U.S. Air Force antenna systems. I then spear-headed the design of specialized components for weather and communications satellites, which were built for the U.S. Air Force, the IntelSat program, and various other nations. Since retiring, I have continued working for Loral (which recently became Lockheed Martin WDL) on a consulting basis, assisting with the design and testing of new communication systems.

Through my work, I have traveled to many sites across the U.S. and abroad, including Alaska, Italy, France, England, and Norway. Vacations have taken me to places such as Hawaii, Andorra, Scotland, China, and Japan.

In 1995, my first grandchild was born, and I spend as much time as possible with Quentin. I am updating my computer, and repairing my old Lionel train set.

After finishing high school mid-years, I was hired at the employment office in Boone where I had been working as a business training student. I continued there until 1948 when I married Reuben Sansgaard, moved to northeast Boone County, and became a "novice farm wife."

By 1951 I had adjusted quite well to life on the farm, and looked forward to a new challenge -- motherhood! During the next fourteen years four "new challenges" joined our family.

In addition to general farming, Reuben gradually expanded his business of producing and selling soybean and oat seed. Consequently, my "career" gradually changed from "just-a-wife-and-mom" to "the company bookkeeper." In that capacity I have appreciated the progressive changes that computers have made possible. Expansion has continued, and I'm still actively involved in the office of Sansgaard Seed Farms, Inc., however, now there are several other office employees who share the clerical and accounting responsibilities.

Work, indeed, has been a major focus in my life, but among recreational and pastime pursuits, travel and writing have been my favorites. In recent years I have taken several creative writing classes where my main concentration has been on memoirs, written expressly for the benefit of our city-born grandchildren. (If nothing else, they should be a little entertained to find out how very naive their grandmother was as a nineteen-year old, town-girl-turned-farm-wife.") Overall, my greatest interest and source of joy has been, and still is, my family.

(Our oldest son, Alan, passed away June 27, 1996, of Acute Leukemia).

Here I sit, pen in hand, fifty years later, deciding, after drafting this three times trying to condense it, that I could write a book.

1948 - Worked at Iowa State Highway Commission in Ames. Met and married Lauren R. "Bud" Gibbs. Bud was on Ames High 1945 Iowa basketball championship team. Also played football and track. He knows several Boone High athletes.

1951- It's a boy, Lauren R., Jr. "Dick." Owns plumbing and heating business in Webster City, Iowa. Also a licensed funeral director and mortician. Has wife and two boys, one lost to cancer at age of seventeen.

1953 - It's a girl, Sandra K., charge nurse in nursing home here in Tucson, AZ. Has husband and two daughters.

1954 - It's another boy, Dennis J., a plumber in Florence, SC. His wife's hometown. Has two daughters and a son.

1958 - Moved from Ames to Webster City where Bud managed a plumbing and heating company.

1960 - One more boy, our last child, Gerri L. "Weed". Another plumber, he and wife, daughter and son live in Jewell, Iowa.

All three boys were on Webster City wrestling team and all four of our children were musicians.

As the years rolled by, we built a home and went into business for ourselves, plumbing and heating of course.

1974 - Bud to Mayo Clinic. Badly diseased spine. Told he could work no more.

1978 - Moved to Tucson, AZ. In spare time, I took up tap dancing with several gals. Made a T.V. appearance, entertained in nursing home and several other places. Also sang duo, trio and chorus. Had lots of fun accompanying many singers on organ and had my own dance band, "Gerry & the Gents". Eventually it became too difficult to transport instruments. Also, working full time selling women's clothing in an exclusive shop, which I dearly loved.

1988 - Finally, after a bout with cancer and returning to work, my old back wasn't cooperating, so I am now at home doing the crafts I've always loved.

If we don't get back to the reunion, we send our best wishes, to all of you, for many more years of health and happiness. God bless.

It is a nice gesture on the part of your group to work on a new scroll. I do not have anything to brag or boast about. I have merely survived in life by casual labor longshore work on a day-to-day basis until I finally passed an L.A. County Civil Service exam for clerical back in 1980. That indeed provided me with job security, which I am still doing 17 years later. I have not set any retirement date and do not know when I will.

I had a slight stroke at work in February, 1997 and was in the hospital until late February. I came out of it quite well but cannot return to work until March.

Where I've Been and What I did:

Education - Augustana College - 1947-1951; Augustana Theological Seminary - 1951-1955; Ordained into the ministry of Augustana Lutheran Church, June 19, 1955.

Parishes served - Alma Lutheran, Mead, NE; Stratford Lutheran, Stratford, Iowa (so was in the Boone area from spring of 1961 to the beginning of 1968); dual parish of Fridhem, Hordville, NE and Grace of Central City, NE; St. John's Lutheran Church, Schuyler, NE, until retirement on August 1, 1991. Upon retiring we moved to Omaha, NE. I have been kept busy after retiring doing interim ministries in vacant ELCA congregations of the area and for years have been a visitation pastor at St. Paul's Lutheran of Milliard, NE. I have also been singing with the Omaha choral group called the Master Singers since the fall of 1991. Phyllis and I enjoy camping, traveling (having been to Europe 3 times and South Korea once) going to concerts and plays in the Omaha area, reading, music and working in the yard.

After graduation I went to work for the CNW Railroad. I worked for them till I retired in 1978. We moved to Florence, Oregon and I spent a lot of my time fishing in the ocean and the many lakes and rivers.

In the fall of 1986 we decided it best to get out of the damp winters, so we went to Arizona for the winter, but decided it wasn't for us. The next winter we came to Texas and we loved it so went back and sold our place and we have made McAllen our home since then. It's a much easier lifestyle and we are free to travel whenever the notion strikes us. Of course, we always have to come back to Iowa to see the girls and spoil the grandchildren a little once or twice a year.

After graduating from high school I attended Boone Junior College for one year. In the fall of 1948 I went to Champaign/Urbana, Illinois where I worked part-time for the University of Illinois Bands while pursuing my college education. In the summer of 1953, after receiving both my Bachelor of Science and Master of Science degrees in Music Education from the University of Illinois, I returned to Iowa. In August of 1953 I began my teaching career at New Providence, Iowa. My duties included teaching all music - instrument and vocal as well as general music - K-12. I was also Junior Class sponsor and was responsible for overseeing Jr-Sr Banquets and Proms. In the mid-60's I was relieved of the K thru 6 general music responsibilities. While I was teaching I would "get away from it all" in the summers by traveling a lot and spending time fishing and water skiing in northern Minnesota. In 1980 New Providence reorganized with Eldora and I was now in charge of Middle School music in the new Eldora-New Providence School district. In the spring of 1988, feeling burned out, I took early retirement. In retirement I am really enjoying my country home (a setting on 10 acres of timberland with a 2-acre yard). Along with my two cats and dog, I enjoy yard work, flower and vegetable gardening, and the wildlife which presents itself in my country setting. I also enjoy 3-D puzzles, some reading, and just "hanging out" with friends and neighbors as well as by myself, as well as being involved on a couple church committees and directing the church choir. I feel God has given me many blessings and a great sense of peace.

Enclosed is a photo of me taken in early '47 while in the Army (a photo of me does not appear in the '47 Scroll). The later photo of Mrs. Condon and I was taken in late '95.

I enlisted in the Army in September '46. While in the service, passed the General Educational Development (GED) test which allowed me to graduate with the class of '47.

Served 20 years in the Army, retiring in December '66. Married Hideko Aoyagi in July '51 while stationed in Japan. We have four daughters (Carolina Tower, Linda Condon, Shirley Canter and Barbara Tomme) and 6 grandchildren.

Upon retiring from the Army, worked government civil service as an instructor at the Army Signal School, Fort Monmouth, N.J. In 1970 I moved to Fort Huachuca, AZ as a training instructor for new communications equipment and in 1975 transferred to the Army Communications Command at Fort Huachuca, AZ as a communications specialist.

I retired from Government civil service in 1988 and Mrs. Condon and I remained here in southern Arizona.

Between working on the house, working parttime at the post bowling center, doing volunteer work for our church and visiting the girls in Tucson and Denver, we really have not retired yet.

In 1947 the year "1997" seemed a long time into the future; but here we are, celebrating our 50th reunion.

While attending Boone Junior College, I played basketball and baseball. After graduation in 1949 I retained my interest in baseball by umpiring high school and semi-pro games. I also taught baseball rules for the Iowa High School Athletic Association to coaches, umpires and athletic directors.

In 1949 I was on the staff of the Summer Recreation Program directed by Howard Stutzman...worked briefly for Kruse Clothing...and then was employed by the J.C. Penney Company. In 1949 I also became interested in a young lady named Marilee Oxenford. My position with Penneys lasted until December 1955; however, my interest in the young lady still exists. I married her in August of 1950 and except for two years with Penneys in Mitchell, S.D. we have spent the balance of our years together in Boone. We moved back to Boone where I managed the Redeker Furniture Store for thirty-five years at three different locations, retiring in 1990.

Our son Jim continues to work for Redekers in their present location on S. Story. Our other son Ken is a CPA and has started an accounting firm in Boone. Both of them have lovely wives and each has two sons, Jim and his family live six houses south of us and Ken's family is three houses north of us. People have jokingly said that S. Marshall should be renamed Curell Ave.

Our oldest child, Cathy is retarded and employed at the Boone County Work Activity Center. Cathy is about to move into a Supported Living Program after being at River Valley Residential (formerly the County Care Facility) for 25 years. She is a joy and her child-like wonder is catching.

Marilee and I are both active in the First Baptist Church. Each of us teach an adult Sunday School class and through the years we have served on various boards and committees. Marilee has directed the choir for 40 years.

I have had some health problems...4 years ago I had heart by-pass surgery and I have to deal with diabetes.

We are pleased with our decision to remain in Boone and Boone has been good to us as a family.

I completed one year of graduate work at Amhurst College, Mass., and U.C.I. in California. I taught music at Foothill Schools in Claremont, California. At present I'm still teaching music theory, harmonica and piano, independently. We are near our younger daughter, Lisa and her family who live in Huntington Beach, California, but Michele and her family live in Vienna, Austria where she sings opera and teaches voice at the Conservatorie. We have the privelege of visiting Austria every 2 years and of course seeing a new part of Europe each visit.

I was married while attending Drake University to William Lafferty. We had five children: Jean Ann, Sheryl Kay, Teddy Alise, Wm. Eugene Doran, and Keith Laverne (killed in an accident at age 19 years). There are seven grandchildren.

I retired from work after my husband's death about 12 years ago.

My husband's promotions moved us across the U.S. We have lived in the New York area, New Jersey, California Bay Area, Seattle, Edina, MN, and the last 25 years in the Portland Oregon area.

For the last four years I have taken care of my Dad who is 88 years old. My sister, who lost her hearing from a childhood illness, also lives with me. They require a lot of my time.

I manage to volunteer 6 to 10 hours a week in orchestras and vocal music. It's a welcome break from the constant stress at home.

Spent four years in the Air Force following graduation, mostly in Texas, Mississippi, and England. Graduated from Boone Junior College and then worked as a draftsman for the F.D., D.M. & S. Railway for a number of years. Decided I was getting nowhere there, so I enrolled at Iowa State University and graduated in February, 1968. I spent the next ten years traveling as an auditor for General Tire and Rubber Company. Ended my working days with First Bank System in St. Paul in 1994. Since my wife and I have spent most of our married lives in motels and apartments, we now enjoy our own home. Working on genealogy is my hobby and I putter in the yard and garden for relaxation. Although we have seen much of the U.S., western Canada, and central Europe, we still enjoy an occasional trip.

After graduation from high school, I attended Boone Jr. College and graduated in 1949. I spent my time in the military. In 1951 I went to work for Lippert Bros. Construction Co. January of 1957, I went to work for Iowa Electric. While there, I finished schooling and received a degree in electrical engineering.

In 1971, we moved to Newhall, Iowa to assist in the building operation of the Duane Arnold Nuclear Plant. Later, I transferred up to the main office as an engineering group leader. In 1986, I took early retirement but went to work for Tele-Connect Long Distance Co.

In 1990, went to General Mills and on to PMX (Brass Rolling Mill), then to Link U.S.A. (Wholesale Switching Co.) to assist building the new company. Also assisted Clark McLeod in starting his new Tele Communications Co.

At present time, I do part-time engineering consultation for Frontier Tele Co. I also am doing part-time work for Benton Schools. In November 1995, I was elected Mayor of Newhall for a 2 year term.

After high school I graduated from Cornell College in 1951, Columbia University in New York City in 1953, receiving my Master Degree in International Affairs.

In 1953 I began working for Ford Motor Company in New York City. I moved with them to Michigan in 1956 and retired in January, 1990, after 35 years.

Since retiring I've lectured for the Detroit Symphony Orchestra for seven years to over 60 high schools on classical music. I play in Master's Tennis Tournaments around the midwest, do deacon's work for my church and we travel. My wife's parents are still alive in England and we go there to visit at least twice a year. (We'll be married 15 years this April).

We have three daughters, Becky, Janis and Paula, and a son Mark, who teaches in New Zealand. We also have two granddaughters, Lindsey, 6 and Shannon, 4.

Now that our schedule looks like we can attend our 50th reunion, we are really looking forward to it. Fifty years certainly went by quickly.

Following graduating from Boone High I attended UNI and ISU. College attendance was interrupted by a need to seek employment to bolster my finances. It was put on hold again with marriage to our classmate, Lewis Patterson, in 1951 and the birth of our daughters in 1954, 1957 and 1963.

The years between 1954 and 1978 were busy with the usual duties of mother and homemaker, church, civic and volunteer activities filled spare time.

After a 29 year hiatus in my college career I returned to ISU in 1978 to finish my course work, graduating in 1980 with a B.S. in Family Environment-Family Services. Sadly, this same year was marred by Lew's death in August following a lengthy illness.

I had a five year career as a supervisor for a home health care agency. This career was interrupted by marriage in 1984 to yet another Patterson, Lew's brother Pat, who had been widowed in 1983.

With the marriage his son and daughter were added to my family. We have a combined total of thirteen grandchildren.

Visits to and from our families plus additional travels, golf and individual interests keep us active and well entertained.

After graduation I was employed as a telephone operator at Northwestern Bell office in Boone. I married Chuck Eastlund October 17, 1950. I continued working 4 1/2 years, then quit to start our family. We were blessed with 1 daughter and 3 sons. We lost our son Dave in 1982 at the age of 24. My husband, Chuck was killed in a truck accident in 1984. I continue to live in the country. My two sons Tom and Phil farm for me. My daughter Sue lives in Spencer with her husband, Pat and their family.

I'm very thankful for my family. In the summer I spend time with my daughter and her family at Lake Okoboji. My grandsons Ed and Dave compete in sailing there. In Boone I keep busy with Tom and Kathy's boys, Charlie and David, attending their baseball games. When I have time I enjoy having coffee with my friends.

In 1978 I quit K-Mart and also was divorced. In 1979 I married my second wife (a very young man) and we moved to Hill Grove, Ark. We married there in 1979 and have been married ever since.

I left Boone in June of 1947 for El Camino Jr. College in Los Angeles, CA. I attended college for one year while working for Northern American Aircraft, Thrifty Drug and tending bar. In 1953 I moved to Peoria, Illinois where I started to work for F. W. Woolworth Co. I worked their stores in Illinois, Indiana and Michigan.

I married my first wife in Manister, Michigan in 1957 when I was manager of my first store. I then managed stores in Chicago, Logansport, Ind. and Terre Haute, Ind. I quit Woolworth in 1966 to take a Dept. Manager position with K-Mart Corp. In Terre Haute When K-Mar was just getting started. They transferred me to Flint, Mich. in 1969 to become a Merchandise Manager for three stores in the city of Flint. I then moved to Durand Michigan in 1970 so my children could attend a small school in a small town atmosphere.

In 1978 I quit K-Mart and also was divorced. In 1979 I married my second wife (the best thing that has ever happened to me), and we moved to Bull Shoals, Ark. We moved there to help take care of my parents as my father had a terminal disease. Since I was the only child I felt it was my place to be with them. While in Arkansas, I worked tending bar and as a night watchman in a factory before taking retirement in 1992.

My wife continues to work as she has some years to go before retirement, therefore, we have not been able to travel as much as we would like to. Also we are taking care of my 90 year old Mother since my father passed away.

Our children are scattered from Michigan to Texas, and we do not get to see them as often as we would like but do make a few trips occasionally. We do hope to do more traveling in the future. We also spend a lot of time waiting for the Publishers Clearing house to drop by;!!!

Spent 12 years on the city of Boone Police Dept. and also worked for Eldon Krug Builders. I started my own construction company in 1968 completing mostly commercial projects. Sold out in 1984. At that time, Evelyn, Jessica, Jennifer, Joshua and myself moved to Dallas, Texas. I worked for Austin Commercial Construction Company. In 1989, all of us, excluding Jessica, moved to Concord, California. I worked for Brown & Root Construction as project manager/estimator. I was fortunate to have worked on several interesting projects at Pebble Beach Golf Course, Golden Gate National Park, Treasure Island, and a new library, downtown San Francisco.

Moved back to this area in October of 1996 and still can not adjust to cold weather!! I had total Knee reconstruction done on my knees, the first being done on January 22nd, and the second done on January 29th. I am recuperating and semi-retired at this time.

Two weeks after graduation I got married! Seventeen year old child bride! We lived 2 1/2 years in Masinee, Wisconsin on a large dairy farm. We moved to South Bend, Indiana in 1950. In 1953 Dick and his dad started a lumber yard in Elkhart, Indiana and we lived in Elkhart until 1978. I worked in the office as the bookkeeper of the lumber yard for several years. In 1978 after our last daughter graduated from high school and left for college we moved to Naples, Florida. In 1981 I went to nursing school and fulfilled a life-long desire to become a nurse. I graduated at the ripe old age of 52! I've worked (part-time only) in the Naples hospital and enjoyed it very much. Our "kids" and families all live in Indiana so we enjoy visiting them in the summer months. Our fiftieth wedding anniversary will be celebrated on June 15, 1997.
