After high school I spent two years in the United States Army, ten months of that in Korea.

After discharge I went to Boone Junior College and after that I did numerous jobs that I'd just as soon forget. I finally settled at the Ames Public Library as Bookmobile driver-clerk, serving for thirty years.

In my last three years of that employment, I was a State Certified Librarian. Picture shows me on my last day of employment, October 31, 1996.

Pat and I raised our two children here in Boone. After serving my time in the service during the Korean War, for a number of years I was an agent for the REA Express, that was located on 9th Street across Story Street from the CNW RR offices.

When that position was eliminated, I became a mechanic for the railroad, which a few short years ago was taken over by the Union Pacific RR. I have worked in that capacity for over thirty years and still go to the job every day.

My wife, Pat, died in an auto/truck accident 15 years ago while we were on vacation down in Texas. I feel I lead a quiet life in the same house we shared on east Second Street.

3 great grandchildren

Trudy and I were married in January of 1955 in New Isenberg, Germany, and spent the next nineteen years traveling around the world while I was in the Air Force.

I retired in December of 1973 and moved back to Boone and worked at the Post Office until June of '97 when we became full time campers.

We spend our winters in Kerreville, Texas, and our summers traveling, but all our family live in the Boone and Ogden areas.

I'm sorry we will miss the 50<sup>th</sup> reunion, but we have made commitments in Missouri and Texas for this time.

Spouse: Robert Day

3 children  
2 grand children

After graduation I worked at Woolworth's, then at the telephone company in Boone. I moved to Minneapolis and worked as a PBX operator and receptionist and then in the credit department of a wholesale warehouse company.

I married Bob Day in 1961 and moved many times as he was in the navy. We have three children and 2 grandchildren. We have lived in Spokane since Bob retired in 1974.

Here I worked in a Hallmark shop, next as a dental receptionist and last as a secretary/office manager in our church. We both retired in 1993.

I read, bowl, garden and since retirement, we have been doing some traveling – some overseas and some here in the states. I'm active in an ohilanthropic group and keep busy with fund raising, plus doing "hand work" and crafts. I go to water aerobics 4-5 times a week and do some walking --- trying to stay healthy. We do get to Boone every couple of years and I have made most of our class reunions.

The fifty years since my graduation have been very fulfilling. I began singing for Ralph Zarnow and his orchestra in September of 1949 and performed on a daily morning show on KIOA. Later that year I met Dale Kever at the Tromar Ballroom in Des Moines.

I was singing with Ralph Zarnow and Dale came on the band to play clarinet and saxophone. He had been traveling with the Gene Krupa orchestra and had come home to finish his college education at Drake University. We were married a year later and were married 34 years before he died in 1985.

We had two beautiful daughters, Karen and Nancy, who grew up to marry and give us five beautiful grandchildren. Karen gave us Angela, Ben and Danielle. Nancy gave us Natalie and Jake.

My life has been filled with many wonderful memories. I have met many wonderful people, both in my business and private life. Singing was my life for 46 years and I enjoyed it very much, but I am retired now and enjoy a peaceful and quiet life.

I recently underwent surgery for lung cancer. I will begin radiation treatment soon and then hopefully return to a normal life. I now live in Urbandale, Iowa, and enjoy doing things with my children and grandchildren.

After graduating from Boone High, I worked as secretary for Hellwege & Goodekontz, lawyers in Boone. In 1950, I married my high school sweetheart, Jim Youll and we lived in Boone for a year. Then we moved to Ames and I worked for the Iowa Highway Commission.

In 1952 we moved to Des Moines where our first child was born. In 1953 we again moved to Pierson, IA, where Jim started his own plumbing and heating business. In 1954 we moved to Anthon, IA, where Jim started his second plumbing and heating shop. We remained in Anthon until 1966. While there we had three more children.

I was involved with church, UMW, church choir, directed junior choir, Eastern Star and ran children thither and yon. In 1966 we moved to Sac City, IA where we still reside.

I was church secretary for 25 years, retired at 62 and love it. We enjoy the winter months at Victory Palms Resort in Donna, TX. I still enjoy singing, dancing, cards, golf, swimming, piano/organ, Cushman Scooters and an assortment of crafts.

Our four children are all married and we have 11 grand children. Jean lives in Des Moines; John in Hays, KS; Susan in Bentonville, AK; and Allan in Tuscon, AZ

ROBERT W. ICK  
1611 - 27<sup>th</sup> Street  
Ramsey Home  
Des Moines, Iowa 50310-5414

I feel I led a happy, normal life until about ten years ago when I lost my son. First it was his fiance a few weeks before their marriage, then a few weeks later he also died. A few years later my wife became quite ill, and I feel her condition was mis-diagnosed, and a short time later, she, too, was taken from me.

My mother continued there in Boone at the family home on the north side for a number of years , but the powers that be felt I should become a resident of a different living situation and so I have been a resident of Ramsey Home since that time.

My power of attorney comes back from his trip to Europe on 9-22 and is available to take me to Boone. I can't drink and take a lot of pills, but heard from John Wenzel who I understand will try to attend. So I am looking forward to seeing old friends.

2 great grandchildren

Instead of college, I chose to marry, the same year we graduated. We had four children, two girls and two boys. We were married for 22 years.

We divorced and I went to the College of "Hard Knocks". In Ames, Iowa. I went into a manager trainee program with J.C. Penney Co. I was manager of the Women's department for four years. I moved to Des Moines and managed the Women's department at a Target store. I worked in Des Moines for four years.

Then I was blessed by God, who brought Denny into my life. He was a terrific farmer. We married and this city girl moved to a farm eleven miles from Guthrie Center. It was wonderful living on the farm. Very peaceful and quiet. I have lots of funny memories of helping Denny tag calves, putting hog rings in the hogs' noses, chasing bulls in the middle of the night out of the yard. How about walking a cow and calf one mile in the middle of winter (-50 below) to our barn. I could go on and on. We have been married for twenty years.

Denny retired from farming in 1998. We have moved to a lovely spot at Lake Panorama.

Denny also had four children from his first marriage. The greatest sadness in our marriage was his oldest daughter, Linda, dying of cancer in 1993 at the age of 37.

We enjoy entertaining our 7 children, 15 grandchildren and 2 great grandchildren at the lake. We like to go dancing, play golf and play bridge. We also like to travel and have done a lot with more to come. (Lord willing).

Our greatest accomplishment during our 20 years together is accepting Jesus as our personal Savior and doing our best to serve Him.

5 Children

I was born in Boone County and now live in Jefferson 30 miles from Boone. We have a home across the street from the Abundant Life Church and down the street from the hospital on the Lincoln Highway; so we are prayed over and the hospital is waiting. John and I have been married 46 years.

I was always in the "in crowd". I was "in" county school, then "in" Sacred Heart, "in" one year at Boone High, then "in" nursing school at St. Joseph's in Ottumwa. I was "in" farming for 40 years, and am now "in" Jefferson, IA.

We farmed west of Paton until '91 and thence moved to Jefferson.

We have five children, Carol in Jefferson; Lloyd farms at Paton; Janet and Helen both live in Kansas City, KS. Lee and his wife Sandy live in Bradenton, FL. We have no grandchildren BUT, we have "adopted" four boys from across the road. We have many laughs from our boys. They are 5, 7, 9, and 11, and when they get naughty, we send them home to Mom and Dad.

If this is too late, I understand: I'm always procrastinating!!!!

It looks as though you have a real nice 50th class reunion planned. I'm sorry that I will not be able to attend. I had a real light stroke on my right side four and a half years ago, which caused me to lose the understanding of words in my right ear. I don't travel very much anymore.

A brief history of what I have been doing over the years. After graduating I was in the Navy. Shortly after leaving the service, I went to work for Northwestern Bell (now US West). After moving to Albuquerque, New Mexico, I worked for AT&T at the Federal Aviation Administration Center

My years of service with US West were transferred to AT&T. At retirement on May 1, 1989, I had a total of 34 years with the Bell Companies and AT&T. I worked at various small jobs until I had the light stroke.

I am enclosing a picture of myself taken at Christmas of 1998. Also enclosed is a check for \$20 for the Scroll and to cover the postage to send it to me. I am looking forward to receiving it.

I attended Boone JC for a year and Iowa State Teachers College until Uncle Sam thought I should be in the army. I didn't like that idea, so joined the navy and became a Seabee. Three months later my high school sweetheart became my wife and has produced three girls and a boy for us.

After the navy, I worked as a carpenter for five years and then started my own construction business. I retired from that in 1993 and now spend my time traveling, working in the yard, making furniture, doing odd jobs for old people, and playing poker.

We are still married after 48 plus years and attend our class breakfast almost every month. The only time we are not there is because we are either out of town, gone fishing, or just plain forgot about it.

**LEE O. LAWSON**  
8134 W. Farm Road 124  
Springfield, MO 65802-6671

I went to work at U.S.Gypsum Company in Fort Dodge after school, and moved back to Springfield in late 1950. Married in 1954 and shortly after went on a little trip to Camp Chaffee, Arkansas; then on to Fort Knox and then to Korea.

Thence joined the reserves and in 1964 to work for the Springfield school system as H.V.A.C., retiring in October of 1992, after 28 years of service. They have a pretty good system, but poor leadership in board members.

We have five high schools and 47 junior high and middle and elementary schools. All these have an enrollment of 26,350 students.

We also have the largest fishing store (BASS PRO) and they are building a wild life museum.

Have had a bad case of 'ole arthur-itis' and also joined the big "C" club as in 1983 I lost a kidney to cancer. So far I'm clean, but you never know. Health-wise I can still get up and pour a cup of coffee.

P.S. I've got a new Ford Motor Company pen, and it can't spell or think, either!!!

From graduation until August 1956: attended Boone JC; spent 4 ½ years in the Navy; enrolled in the University of Iowa where I got a BA in Business; there I met my future wife, Jan, who was going to nursing school .

I worked for Spurgeons in Boone, Mt. Pleasant and Ft. Madison until August 1962, then as a buyer in their Chicago office until 1991. During those years our two daughters were added to our family. I spent three years as a transportation director for a school district nearby while waiting for Jan to retire from her nursing job.

In 1995 we retired to Southern Pines (adjacent to Pinehurst) NC. We built a home on a golf course in a new, mostly retirement community. Needless to say, we both play a lot of golf (and bridge), do volunteer work, and when not visiting family, like to travel both in this country and abroad.

23 grandchildren

I was born March 18, 1931, parents were Leo and Rose Masterson. Graduated from Sacred Heart School in Boone in 1949. Following graduation, I worked at Hollingsworth law office and then at the Boone State Bank.

I married George Uthe in 1950, moved and worked in Ames, and a bit later moved to a farm Northeast of Madrid. We lived there 34 years and raised our 8 children on the farm. My husband died in 1982 and I lived there for another two years, after which I moved to Jewel, Iowa. I lived there for thirteen years and worked in the South Hamilton School system for ten years.

Last spring I decided it was time to move again so moved to Ames. I have a lovely apartment and am so very glad of the move. I enjoy swimming exercises and walking, as well as reading, attending Iowa State Center programs and events, St. Cecelia's church activities and gardening. Every resident has a garden plot, but some are not used, so I decided to take them over for the year. Since I always liked to garden, I am really enjoying my new living arrangements.

I would like to come to the big 50<sup>th</sup> reunion, but it will depend where we end up our travels this summer. We will be in Glacier National Park with friends around July 17 to the 27<sup>th</sup>, and probably head on to the East coast.

Hira, my friend, and I spend winters in Apache Junction (suburb of Phoenix) and summers in Napa, CA. And traveling. We bought a new Winnebago last summer, longer and wider and harder to drive, but much nicer to live in. Big Diesel engine and all that stuff. It blows a lot in the wind, and I guess that's why I don't want to be in the Midwest too late in the season. We still have the Rockies to cross.

We only got as far as Glacier so headed back to California. Not only that, but we ran into the cutest Golden Retriever puppy on the trip. We couldn't get him out of our minds, so, of course, we put a downpayment on a one week old Golden here at home. The puppy (Jesse) will be ready to come home to us on September 21 when she will be 7 weeks old. I think you get the picture.

I think it would be really fun to see all these people I haven't seen since high school. Darlene who you were talking about? Darlene Maddux? I hope you get some kind of letter about everybody.

Good luck with the reunion.

My life since graduation has been very good because I married Joyce Olson in 1951 and started our family.

I worked for Iowa Electric for 35+ years and in that time I transferred two times. I went to Jefferson in 1965 and to Muscatine in 1977. I retired in March of 1986.

Since retiring, I have lived in Hiawatha, Iowa, and traveled to Texas and Arizona in the winters. In 1996 we sold our home in Hiawatha and settled in Apache Junction, AZ.

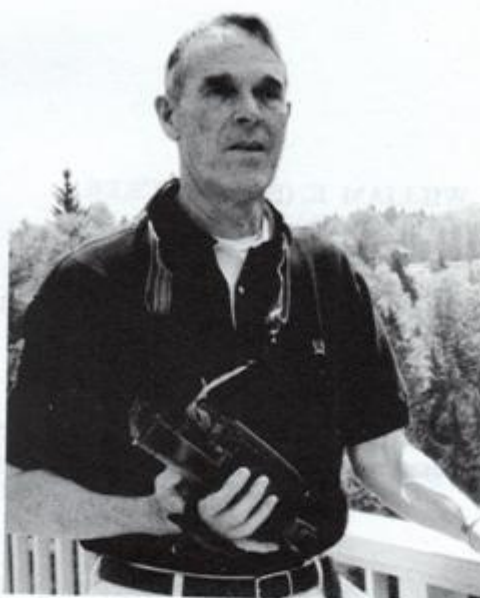

I still try to stay active with golf, bowling and playing on two slow-pitch softball teams in the "winter" months.

During the long, hot summer of 1949, I, along with Don Baker, Chuck Eddy, and Jim Parry enlisted in the U.S. Air Force. We traveled to San Antonio, Texas where we learned what HOT really meant. We were together through thirteen weeks of miserable Basic Training, after which we traveled to our own separate A.F. assignments. Both Don and I were assigned to Travis AFB in California, while Chuck and Jim went to separate bases for their further training. At the end of our enlistments, we returned to Iowa to start our lives.

I chose to return to the Air Force where I stayed until 1970. During my A. F. career I worked with radio communications and missile guidance and control systems. My duties took me to Germany, England, Johnston Island, Florida, Texas, New Mexico, Nebraska, Colorado and California. California is where I met my lovely wife Joline and our two daughters were born there.

After the Air Force, I found employment with the US Navy. My work was in San Diego with electrical/electronic and undersea systems fabrication, test and development. It was during this time that I attended San Diego State University part time and earned a Masters Degree in Financial Accountancy and passed the CPA examination.

My next career was as a Defense Contract Auditor. Audited shipyards, electronic firms, aircraft manufacturers, space vehicle manufacturers and construction contractors.

Retired in 1995.

3 grandchildren

Many events have happened in the past fifty years. After I graduated from high school, I spent almost four years in the U.S. Air Force, including a tour of duty in Korea.

I was married, April 27, 1952, to my wife, Betty. We moved to Mason City when I was discharged from the service. We were blessed with our son, Andrew, the Forester of Yellowstone National Park, and Nicki, a full time mother in Mason City. We have two granddaughters and one grandson.

After serving on the Plumbing Examining Board for 16 years, I was appointed Mason City Inspector in 1977 and served that position until I retired in 1995.

The volunteer work that I have enjoyed includes Boy Scout Master, serving on the Girl Scout Board as Camp Chairman, several committees in our church, Methodist Men officer, Mercy Medical Center Lifeline, and Credit Union officer. I have been singing in the church choir for over 15 years.

My hobby is woodcarving. As a member of one guild and one carving group, I continue to attend seminars to improve the art.

Betty and I enjoy traveling and spending time with our grandchildren.

As a member of this class from K-11, it has been a privilege to be included in your activities.

Following graduation I attended Iowa Lutheran Hospital School of Nursing, receiving my R.N. I married Bob Powers from the Ogden area in 1952.

• We raised our children on the farm and also raised turkeys until 1991 when we retired and moved to Ogden. I also worked part time during those years.

• I keep busy with grandkids who are close to us. I also enjoy needle work, fishing, golfing, antiquing (I'm a member of Questers), and we both volunteer for the Boone and Scenic Valley Railroad ( B&SVRR)

I am also involved with our Women's group at church and have taught Sunday School there in Ogden.

Thanks for the plug for the Wolf train. Now I have to decide if I want to be hostess that weekend. I love it, but I am tired when I'm finished. Don't want to doze off at the banquet.

I took up permanent residence in the state of California after graduation. In 1951 I was drafted into the US Army and did tours of duty in Hawaii and Germany.

Before my military hitch, I had met and was dating a lovely young woman by the name of Ruth Elaine Daley, a native Californian. While enroute to Germany from Hawaii, I had two weeks leave and Ruth and I were married.

Upon return from the service, Ruth and I moved to Lakewood, CA, bought a home and started our family. We have three wonderful children. We also have two grandchildren: 'Ryan, who is serving in the Marines in the U.S.Embassy in Riyadh, Saudi Arabia, and Leigh Ann, who is also serving in the Marines at Camp Pendelton, Oceanside, California.

We moved to Santa Rosa in 1967 and have been a part of this Northern California community ever since.

After being discharged from the military, I attended college under the GI Bill and acquired a Sales Engineer position with Spider Staging Sales and Equipment Company. I was in charge of sales and production control. Four years later, I decided to go into the insurance business. After spending 38 years in this field, I have retired. Retirement has been very good to both of us. We travel, spend time with our family, and enjoy our leisure.

Ruth and I just celebrated our 47th wedding anniversary in May of this year. We have been blessed in so many ways and are very grateful for these blessings.

We reside in Sonoma County, also known as Wine Country! If anyone vacations or visits San Francisco and wants to see or tour this region, please get in touch. Napa, Sonoma and Mendocino counties have the finest wineries in the United States.

1954 Graduated from University of Arizona

1969 Graduated with Masters Degree from U. of Arizona

After obtaining Masters Degree, taught 3rd grade for 21 years.

I married Kurt E. Storch in 1953, who died of a brain tumor in 1993. We had two children, Holly Parker Storch Norris. She and husband Wes have two sons - Eric, a senior, and Brock, a freshman in Huntsville, Alabama High High School. Son Chuck married Laurie Benson and on 12-23-98, had an adorable blue-eyed, blonde lil' girl.

Married Dr. J. Wright Cortner, widower, 3-5-98. We had known each other for 35 years. We've had a great time traveling around the world and putting our households together, and introducing and vacationing with our children and grandchildren. We've been snorkeling (Virgie) and scubaing (Wright) on the Great Barrier Reef in Australia, as well as with the kids and grandkids in the South Bahamas. Wright and I have been river-barging on the Rhine and Moselle Rivers, and in the fall are going to take off from Paris and do a barge trip on the Seine.

I look forward to the reunion.

I was looking at the picture that was taken at the 45<sup>th</sup> get-together. One of my seven grandkids saw me looking at the picture. I told her these were people who were in my class. She looked again and said, "PaPa, how come you went to school with so many old people?"

When I think about my life over these past five decades, I am struck by how quickly time passes by. I often think about events that occurred at Boone High and they do not seem that long ago. Oh, well, what can one do but enjoy the memories.

Following graduation, I joined the Air Force, serving for three years, five months, and five days. (Oh, heck, who was counting.)? I served in Texas, Georgia, Nebraska, Mississippi, and So. Dakota. One of the two most memorable events occurred during my time in service. The most important was that I met my wife, Donna. The second was I had the opportunity to serve in Omaha on the personal staff of Gen. Curtis E. LeMay, then Commanding General of the Strategic Air Command. I had and enjoyed the opportunity to travel around the nation and many parts of the world while on that assignment.

Donna and I married in 1953 and moved to veteran's housing at Iowa State. With Donna's working at various jobs and the GI Bill, I graduated with a Major in Industrial Administration and Minors in Accounting and Industrial Physiology. During those years, the first two of our five wonderful children were born.

In 1957 I joined the AT&T company in Minneapolis. I worked the next 35 years for AT&T, NW Airlines, Control Data, NW Bell and Medtronic. During my work life I had the opportunity to become part of the adjunct facility of St. Mary's Graduate School in Minneapolis where I taught classes in Telecommunications. I retired from formal work in 1992 and have been busily engaged in a variety of volunteer activities. I have been a Mason for 34 years, serving as Master of my lodge in 1979, and have been treasurer since 1981. I am active in other groups as well. I have attended Inver Hills Community

College and taken various courses in Geology, Anthropology, Psychology and Meteorology. As you can tell from the picture, I enjoy my seven grandchildren and are fortunate they all live in the local area so we see a lot of them and their parents. Well, I sign off for now.

I was a mid-year student but had a quarter of a credit to make up for Phys Ed, so I decided I would take English Lit the second period with Louise Linderblood. She later drove my wedding gown and I to church for my wedding

I also worked in the Principal's office the 3<sup>rd</sup> period. After lunch I worked at the Boone Credit Bureau till July, then worked at the Chamber of Commerce. Went to Boone J.C. the fall of 1950; met Don Miller in 1951 and married him September of '51. He was an engineer for the Chicago & North Western for almost 45 years.

We have four sons and daughter-in-laws. Van & Kathy, Kim and Laural, Matt and Teresa and Nick and Diana. They have given us two grandsons and eight grand daughters. We are happy we moved back to Boone to raise our sons in a small town environment.

God has made them all very loving, caring and successful a credit to their parents.

I attended Boone Junior College after graduation and continued working at the Northside Thriftway Grocery Store as I had in high school. While working there I met Max Stanley from Grinnell who also worked there. We have been married 49 years.

Our oldest son, Keith, is a dentist in Wilton, Iowa. His wife, Rosemary, is a Supervisor in Radiology in the Dental College in Iowa City. They have four sons. The three older boys are in college in Iowa City. Two of these boys have been State of Iowa wrestling champions. One of them has been champion twice and also won the State title of the most wins in four years of High School wrestling. These two are on the IOWA wrestling team now.

Gary, our second son decided to farm after graduating from Cornell College at Mr. Vernon, Iowa. He and his wife, Peg, have two sons and live near Reinbeck, Iowa. Our youngest son, Eldon, attended Iowa State for three years. He is Head Custodian at Marshalltown High School. He and his wife, Becky, have two girls and a boy. They live in Gilman, Iowa. One of the girls is married and we have a great granddaughter, Baylee.

Max and I are both retired. Music is still a big part of our lives. Keeping up with our growing family is very important to us. We spend at least five months in our winter home in south Texas and travel as much as we can the rest of the year.

We have and have had many Blessings.

We are both looking forward to our reunion. We have not missed one yet!

I was widowed in October 1991 when Jo died of lung cancer after battling it for five years. She was a graduate of Ogden High and we were married April 1950, so we had nearly 42 years together that brought us four children.

I graduated from Iowa State in 1954 and have worked at Iowa Methodist Medical Center in Human Resources as Employee Relations Manager for 42 years. I retired in April 1998 after working with the merger of Lutheran and Iowa Methodist into the Iowa Health Systems. They are now merging with five other sizable hospitals and after the first merger experience, thought it a good time to retire after those 42 years..

As for our children, Randal David was born July 1955 and is now a doctor in a Chicago Hospital clinic in Merrillville, Indiana. He and his wife, Ann, have been married 23 years and have three children, Nate, 16, John, 13, and Rebecca, 7. Ann is a Special Ed teacher in the Merrillville schools.

Cindy was born January 1957 and has worked for 15 years with U.P.A. in Des Moines in computers. She is divorced and a single mom, raising two girls, Cheri, 18, and Amy, 13.

Renee was born September 1962 and is a pastor's wife in Houston, TX. David is pastor of Atascocita Lutheran Church there and they have three children, twins Justin and Joseph, 4, and Kristopher, 3.

Rob was born February 1965 and is a math teacher in Norwalk, Iowa schools as well as his wife Rhonda, who teaches at Roosevelt in Des Moines. They met at Oral Roberts University and spent two and a half years teaching on Maui in Hawaii. They live in Clive and have two boys, Wil, 4, and Andrew, 3. This counts up to ten grandchildren.

I know this is more info then you need, but you can pick and choose. I'm keeping busy now along with my family . volunteering for my church and doing prison seminars for Prison Fellowship.

Thanks for all the work you are doing for our 50<sup>th</sup> reunion. It was good to talk with you earlier this week. I am enclosing a check for the banquet and book, along with info about me, and my children, and a picture.

I am sorry I will not be able to come to the reunion, but am interested in all of you, and plan on buying the Scroll.

I can't imagine why anyone would be interested in my life!! I was married to Robert Nordstrom in 1951. I have one daughter and two sons. Bob left me in 1970. My youngest son, Don was only six, and myself moved back to Boone after living in Omaha. The other two children were 16 and 19, so they were mostly on their own.

I bought a small home in Boone on Linn Street where I continue to live. I have six grandchildren and two great grandchildren. I love them all very much. My ex-husband died of cancer in 1997.

I have had lots of health problems, but very thankful and so grateful that I can still work at my age and health. I have been a greeter at Wal Mart for almost three years.

I had a massive heart attach in 1987; have had surgery twice on my hiatial hernia and my stomach pulled down twice. I have had cartoid artery surgery on the right side of the neck, and at that time they told me I have an anuresum on the base of my brain., but I am too busy to be sick, The Lord just isn't ready for me yet.

I hope all who come to the reunion, enjoy it. Until then, you all take care. Love, Kathy R. Nordstrom

May 31, 1949, seems to be a very long time ago in some respects, and at the same time, a very short time. After graduation, I attended Boone Jr. College for one year. At the end of that year, I attended Iowa State Teachers College where I graduated from the two year course in Kindergarten-Primary education. Teaching Kindergarten at Perry for two years really gave me a beginning of understanding of how it is to teach in the real world. Little did they know then they hired me for the magnificent sum of \$2400 per annum, that they would also give me on-the-job-training.

In 1953, I signed a contract in Aplington, Iowa, which stated I would not get married during the school year. In June of 1954, having waited out the Korean War and the contract clause, Leonard and I were married. The years now total forth-five. While he completed his education and I continued mine, I taught at Cedar Falls, Waterloo, Hudson, and Cedar Rapids. In those days, worse than getting married was to become pregnant while teaching. At the end of the first semester, I was to retire, but since another teacher was not available, I was allowed to continue six more weeks. Our first child, Jon, was born in June and in the next 7 ½ years was joined by three siblings. Leonard entered the field of School Administrators, first as Principal, then as Superintendent in three Iowa schools, then Lombard, IL and finally Bloomington, IL.

In his spare time, he earned his Ph.D. at Iowa State. The rest of us moved along wherever his career led us, and tried to keep any embarrassing remarks within the confines of the home. Sometimes more successfully than others. Leaving the security of my kitchen while in Maquoketa, I enrolled at Clarke College in Dubuque to earn my Masters in Learning Disabilities. After teaching in two schools, the best job I had was as a Diagnostician/Learning Consultant for a county special Education association near Bloomington. In 1994, after 33 years as a (super) and 27 years as a Special Ed educator, we retired. Since 1994, we have traveled in our motor home and have a small claim to fame in that area, as we have owned six motor homes. (When they get dirty, we trade.) We started big and have worked our way down to easily managed, yet comfortable, which allows us to winter in Palm Desert, CA. We have built a retirement home on the farm where Leonard, his father, and grandfather were born. On June 14, '99, we returned from a 3 ½ month trip to New Zealand and Australia. It was a good trip and we saw lots of "good stuff".

During the months we are at home, we volunteer at the Johnson Co. Court House telling people where the courtroom they are to appear is located. (They don't pay much attention to us either.), and also at the food bank. It is unbelievable that in the midst of this prosperity, there are hungry people, but there they are. We have been impressed with the dignity and compassion with which all the clients are treated.

John has his own manufacturing company in St. Charles, IL, Peggy is an elementary principal in Boston, Carol is a Special Ed teacher in Peoria, and Mark is an attorney in Cedar Rapids. We have one granddaughter and four grandsons. (It's much easier to be a grandparent than a parent. When they go home, you can take a nap.)

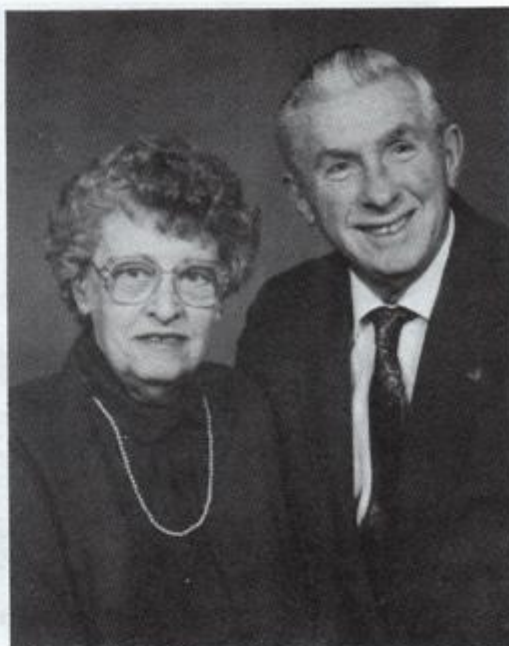

If I had to do everything all over again, I would! Life is good!

I don't have much to tell, or will tell. I've been basically a mechanic all my life.

Went to California in "60" and was there for 25 years. Mechanic in Chev and Ford dealerships. I would take a break on occasion.

Drilled water wells for about three years, just for fun.

Drilled for gold in Arrow Head Lake area.

Drilled for water in Hard Rock areas and in Desert Sand.

Made good money, had fun with every damned dime.

Came back to Iowa in '85, retired and moved to Bouton in '91.

Bought a large building and I'm buying and selling anything just for fun- mostly collectibles and antique dishes.

Hi! This is Lorraine VanDeWoestine Miles and here is a synopsis of my life since graduating from high school:

I worked that summer and then went to Iowa Lutheran Hospital School of Nursing ( along with Lois Murken & Norma Jean Peterson) where I spent three years learning to care for the sick. There are many memories, both good and bad. Graduated and became licensed after September of '52. While going to school, I met my future husband, Fred Miles, and got married April 5, 1953. We moved to Omaha area the following July and lived there till April of 1994. We had five children. Michael was born in Nov 1954 and is now a pharmacist in Omaha, married and has two children and one grandson.

Thomas was born in August 1956 and works in Omaha as a laborer; Jerry was born in August 1959 and is a civil engineer in Dallas, Texas, married and has three children; Carol was born in February 1961, married with three children and going to school to become a computer programmer and sells Mary Kay cosmetics in Omaha; JoEllen was born Nov 5, 1963 and is married with two children & lives in Garfield, Arkansas and works at WalMart warehouse. This totals ten grandchildren and one great grandson.

I worked in several hospitals in Omaha and finally in 1964 I started to work in psychiatric hospitals and continued till retirement in 1993. I learned a lot about life while working and enjoyed the experience.

My husband was a construction worker and belonged to the Ironworkers local. He was a very talented person with his hands and worked on cars, and built homes. He became ill after retiring to Iowa and passed away in September 1998. We had moved to Radcliffe, Ia in April 1994 and after Fred's death, I moved back to Boone where my sister and her husband live.

Guess I left a lot of things out, but they are memories for me, both good and bad. I plan on doing volunteer work and also some sales locally.

Hope this is sufficient information. I am looking forward to renew friendships. Thank you for this opportunity.

I attended Junior College in Boone and worked for Smith-Corona Company in Des Moines for about one year, and then leased a Shell gas station there. It was a good learning experience in the real world.

I worked for a commercial metallurgy laboratory in Hunting Park, California, for three years. I also began attending night college. In 1960 I was married to a wonderful lady. In 1964 we both accepted Jesus Christ and began to understand the Christian life. We have two daughters and four grandchildren. My wife was born in Nicaragua.

I then went to Aero-Jet General and worked on the "Minute Man" project. After this experience I began working for Aero-Nutronics in Newport Beach, California. I was involved in developing the armor for helicopters for the Vietnam War. I was an Associate Engineer in the Metallurgy department.

In 1968 our family moved to Coeur d'Alene, Idaho and we began buying a motel on contract. We operated the motel for six years. About this time I also obtained a Real Estate license and began building houses. I have over twenty years experience in the building and real estate business.

I am a member of the International Gideons and sometimes a guest speaker at the Union Gospel Mission in Spokane, Washington. The Gideons distribute Bibles to motels, schools, doctor's offices, etc. They now distribute 1,000,000 Bibles every eight days.

Our family enjoys the great outdoors in North Idaho; fishing, hunting, swimming, etc. I think Idaho is the best state to live in.

Spouse – Myrna Barkoff Youll

2 children  
4 grand children

After graduation I went to Sac City to work for my brother, Rollo, in plumbing and heating until November when I joined the Air Force for four years. Spent 1 ½ years in North Africa and Germany. The majority of the rest of the time was spent at the Sioux City base. Discharged in November 1953.

Came back to Sac City and worked for my brother until 1965 when he died as the result of a car accident. Ralph and I bought the shop and later Jim joined us.

Sold to Jim in 1986 and I worked for him until March 1989 when a fall forced me into early retirement.

On June 8, 1958 I married Myrna Barkhoff, a Sac school teacher. We have two children: Lisa Phillips and David. We have four grandchildren, two girls and two boys.

From 1982 thru 1988 we took our vacations on a Honda Motorcycle. We visited thirty-six states and five provinces of Canada. The west coast twice. We had to quit after my accident.

Now we have taken several bus trips as well as car trips. We like to visit antique stores and attend the activities of our grandchildren.

**11 grandchildren**

After graduation I worked for Palmer Plumbing in Ames, IA. On August 20, 1950, I married my high school sweetheart, Lorna and completed an apprenticeship in Des Moines. Our first child was born in November 1952.

In December of '52 we traded our 1948 Studebaker for a 1950 Studebaker pickup and started my own plumbing and heating business in Pierson, IA. Work was hard and long. In 1953, some people in Anthon wanted a plumber, so we moved there. We had a very enjoyable thirteen years in Anthon and three more children were born. In 1964 my oldest brother died and shortly thereafter the three remaining Youll brothers formed a plumbing and heating partnership in Sac City, IA. I bought out my two brothers in 1986 and then sold the business seven years later.

I retired at age 62 and am thoroughly enjoying it. I work with our Cushman Scooters, repairing, building and riding them. Lorna and I have gone to many Cushman national conventions in various states. I also play golf, cards, dance and go south to Texas for the winter.

As seen in the Boone Today newspaper a short time ago that I thought you might get a kick out of, and some remembrances—

**You know you are from Iowa if---**

You measure distance in minutes---  
Weather is 80% of your conversation—  
Down South to you means Missouri—  
Snow tires came standard with your car—  
You have no concept of public transportation—  
You know more than one person who has hit a deer  
You have no problem spelling Des Moines  
Your school classes have been cancelled, too cold  
You've licked frozen metal—  
The only reason you go to Missouri is to get  
Fireworks!!!  
You wear shorts when it's 50 degrees in March,  
But bundle up and complain when it goes below 60  
You carry jumper cables in your car—  
You drink "pop".  
You know what "Hawks" and "Clones" are –  
When someone says they are going out for dinner or  
supper, you know which meal they are talking  
about.-----

## And to Sum Up...

It was nearing the end of August, and "Back to School" signs were in all of the stores. In spite of the heat, we were at our desks on September 7th, 8th and 9th taking State Tests and thinking about the first football game with Roosevelt High. Although the game was to be in Des Moines, many Boone students looked forward to going. The first home game was with Webster City, and it was on that day that the Pep Club girls sported their new red corduroy jackets. The "Y" groups began their meetings in September with Hi-Y installing officers on the 15th and Hi-Tri on the 22nd. We noticed some rather queer looking characters wandering around the day of the Oskaloosa game. These were the Pep Club initiates, and the afternoon was enlivened by an assembly in which they did stunts. The whole school was proud of our Student Council when they were hosts to the State Student Council Conference on September 25th. Boone High celebrated the last day of September by electing class officers.

In October the B-Y-Ettes welcomed their new members with a covered dish dinner at the Y. W. C. A. There was real trouble the Saturday night the Hi-Y Club had their hay ride. A broken axle, a flat tire, and a broken wheel left the boys \$15 in debt. Everyone had fun, though, except a few hay fever sufferers. Dr. Olson entertained us in assembly with his program, "America the Beautiful," which renewed our appreciation of this scenic country. Other noteworthy events in October were Homecoming Day (which was celebrated in the usual bang-up fashion), and the Scroll campaign.

School elections November 2nd proved that Boone High agreed with the rest of the nation because we, too, elected President Truman. Characters stepped right out of Lil' Abner comic strip when the girls escorted the boys to the Sadie Hawkins dance. Those with the best costumes were rewarded with brightly colored lollipops. On Armistice Day an address by Mr. Lant Doran helped us "to remember." After weeks of rehearsals a capable cast presented the all-school play "Growing Pains," to a large audience. Then there was an interesting assembly program on liquid air which was explained to us by Dr. Brown. But best of all was the opening of the basketball season. The girls got a head start when they played Gowrie, November 16th. A victory over Perry on the 19th started the boys out with a bang. Just before Thanksgiving vacation Hi-Tri sponsored a Junior High Religious Emphasis Week with devotionals each morning.

In December C. E. Jones, who succeeds in interesting us in some phase of science every year, returned for a lecture on sound. Working for better international understanding, the Hi-Tri Club sponsored an assembly featuring three foreign students from Iowa State College. December 18th was a red-letter day for the girls' basketball team, as they defeated Ogden in the finals of the county tournament. The Christmas season was heralded with the usual gaiety. However, a solemn note was furnished by the impressive Christmas concert given by the band, orchestra, and chorus. The halls of Boone High were quiet during the next two weeks while the students and faculty enjoyed their Christmas vacation.

In an impressive candle-light ceremony on January 13th, the National Honor Society initiated new members. It was a grand day for some people. Our team played against Newton

on the evening of January 13th. To our disappointment we were defeated. The week from the 24th to 28th was Religious Emphasis Week sponsored by the Inter-Church Youth Council. Rev. Lacour spoke at a series of senior high assemblies on subjects of interest to high school students. On January 26th a marionette show, "The King of the Golden River," was presented to both junior and senior high.

Music filled the air in February, when the high school symphony orchestra presented their annual concert. Since Hi-Tri had outgrown the Y.W.C.A. they moved to the city hall for the first meeting of the second semester. On the 9th and 16th of February preliminary speech contests were held. Another contest, the state swimming meet, was held in Iowa City on February 19th. Now you see it—now you don't. That's exactly what happened on February 21st when the Arnolds, well-known magicians, entertained us.

March got off to a bad start when we lost to Webster City in the District Basketball Tournament on March 3rd. The Y. W. groups sponsored a service in observance of "World Day of Prayer" on March 14th. Our high school concert band gave a program on March 7th. A second musical treat during the month was a concert by the Iowa State College Chorus. Small groups and soloists from the music department met their first competition at Gowrie on March 15th. Recognition was given to the winners of major awards in sports when they were initiated into the "B" Club on March 27th. Football, basketball, and swimming letters for this year were awarded at an assembly on March 24th. On March 25th the Ritz Trumpeteers presented a varied musical program to the combined junior-senior high assembly.

April was ushered in by the last 1,000 Club concert presented by the high school vocal department. "Sorority House," the senior class comedy, appeared on the stage of the auditorium the following Friday, April 8th. The wings of time sped on to April 15 when the school clocks were stopped for two wonderful days of vacation—Good Friday and Easter Monday. Following fast on the heels of spring vacation was the opening of the student political campaign on Tuesday, April 19th. The victors took office April 28th and governed Boone for a day. The new faces seen in Boone High on April 22nd and 23rd were students entered in the state speech contest. This year the Hi-Tri decided to make the club's annual banquet a mother-daughter affair, April 26th.

The Dolphin Club chose the four seasons of the year as the theme for their water carnival on May 4th and 5th. Boone High musicians trekked to Mason City on April 30th for district contest, and the winners there went to Perry to participate in the state contest on May 8th and 9th. For students who had worked hard all year and had done outstanding work, induction into the National Honor Society on May 12, proved to be ample reward. Also reaping the fruits of their labors were those journalism students who had met Quill and Scroll's requirements. On May 23rd the Senior Class Day Exercises were held and the senior picnic was held the afternoon of the same day. Doctor Lister, pastor of First Methodist Church, gave an impressive sermon at the baccalaureate service, May 29th. The halls were quiet again on Monday for the observance of Memorial Day. Tuesday, May 31st, was that crowning day—Commencement! Ah, at last—a diploma in hand!!
