ACADEMIC FUN:
 When your schedule is
 your own worst or best
 friend....

•**COORDINATING** their senior party, Iva Myers ('05) and Chelsea Weddell ('05) try to figure out what to serve. Senior parties started in May and continued throughout the month until graduation.

•**HEADING** to class, students use heavy backpacks so they don't have to go to their lockers. Even though they heard about back problems from carrying heavy packs, they continued to use them.

•**MEASURING** out paint for painting class, Ali Rogers ('06) tries to mix colors for the project she is completing for the art show. Students worked with Mrs. Howe on proposing a project and then used time independently to work on it.

FAST FACT

The early bird classes started at 7:20 and dismissed at 8:00. Two classes, art and careers proved the idea was a success.

WORD TO KNOW

GREEN SLIP

During the second semester, the "green slip" became the color yellow...thus the name "green"! Confusing? YES!

Congratulations to Aaron Mack and Pat Schaefer

•**ACTING** out, Tory McMahon ('05) hits the snack cart for an extra dose of nourishment before heading to painting class. The cart was available in the Commons area because the staff from the cafeteria rolled it down through the halls in order to sell the food.

•**HITTING** the pottery wheel, Anthony Moyer ('06) tries to finish a project. Cody graduated at mid-term and hoped to continue his art interest with some type of vocational schooling.

ART TRIES SPEAKING

Students find comfort and relaxation when working on projects and getting graded for it

As unusual as it seemed, students could hardly wait for the test. They wanted to know how to improve their work. They encouraged the input of the teacher.

What class brought this kind of enthusiasm? The class was pottery and the teacher was Mr. Verlin Potts.

"I knew that I wanted to take this class because I had heard so much about it from my friends," junior **Derek Merk** said.

One of the main things that happened in this classroom compared to others was the independent responsibility that Mr. Potts gave to every student. Yes, he took roll, but after that, everyone was doing his or her own thing.

"You could walk by his room and hear him calling out names as loud as he could. It seemed like kids just goofed off, and we

did, but we also had to work and show him what we learned," senior **Bre Kathman** said. "He taught me to have confidence in my work and he was the reason that I took Grand Prize at the Conference Art competition."

Even though some kids got away with more than they should because they were out in the hall, they also learned more than they expected in the pottery class.

•**FINALIZING** a project on the wheel, art instructor Mr. Verlin Potts shows how to level off the top of a project. Mr. Potts taught art for 31 years as well as worked on prom decorations with students.

TESTING 1,2,3...

Thinking it through

Whether it was alone or with a friend, memories made while in school could never be replaced with anything else.

"If it wasn't for wrestling, I would probably skip school all the time."

• Brett Warrick ('07)

"I constantly am trying to goof off in school. I don't get in trouble much but maybe I just don't get caught."

• Bryant Knox ('08)

• **TEACHING** can become much more challenging as Emma Reinertson takes her catapult out of her car trunk. Science classes added one more element when it came to kids teaching kids

• **TAKING a break** in the cafeteria, freshmen visit over food from the snack bar. Students had the choice of main dish, salad or snack bar.

Congratulations to the Class of 2005!

FRIENDSHIP

FOOD...THE STAPLE OF SCHOOL LIFE

•**SPENDING** time together over the lunch hour, juniors challenge themselves to get through the meal and back to school in 48 minutes.

•**FREEDOM** of expression allows students to be themselves while in school, whether they are sharing the time with their friends or trying to do their "thing" alone.

FIRST FORMAL DANCE

Loving to dress up for the Winter Dance, freshmen Katie O'Brien and Melanie Bloomquist stop dancing for awhile and capture the memories of the night.

Carrying a backpack can cause back problems but the benefit of avoiding lockers made it worth it.

WOULD YOU THINK IT WOULD BE BETTER TO HAVE BACKPACKS BANNED IN THE SCHOOL?

It might be my opinion but...

"I would never make it to class without my backpack."
Britt Putzier ('07)

"Wearing my backpack keeps me in shape and gives me space in the halls."
Bryce Mitchel ('07)

The students appeared to carry all of their belongings in the small pack on their backs.

"It would probably make much more room in the halls. They are so crowded that it's hard to pass to other classes."
Dan Reetz ('07)

"If they make that a rule, I'm in trouble. I don't want to go to my locker every day. First it's the dress code then the backpacks. Why does it all happen to our class?"
Wyatt Elsberry ('07)

"I carry everything in my backpack. I don't even have to carry a purse

because I have everything I need with me all the time."
DaNeil Olson ('06)

"I would love to see them eliminated. I understand the convenience for the students but it makes the classrooms really crowded. It's dangerous to walk around because I catch my foot on them."
Mrs. Jill Bass, Math

The rules constantly changed but the impact on students was usually predictable...

TESTING 1,2,3...

GREG MATHIES ('05)

"I don't care what they do for rules in the future. I'm outta here and don't have to follow them."

REWARD FOR HELP

Students found a variety of ways to suggest rewards from teachers. Most often it involved food.

•**BREAKING** the hat rule, Dan Schlieman ('05) sits at the Whistle stop waiting to place an order. Dan went with a group from publications during their open time.

•**PAGE** partners, Kayla VanPelt ('05) and Sarah McCloud ('05) take a break from a busy day at school. Kayla missed several weeks of school due to knee surgery.

•**ONE** more hat, Justin Nelson ('05) enjoys a breakfast out. Students often used their open campus time to go out for lunch or for breakfast because they didn't have time to eat at home.

•**TURNING** in their order for a light lunch, Iva Myer ('05) and Becky Wittrock ('05) enjoy time together at the Whistle Stop.

LOOKING AT TEACHERS

Tell what you are thinking

Sarah Hodgson ('06) "I think Mr. McPartland reminds me of a celebrity because he looks like the mummy from "The Mummy"."

AJ Longnecker ('06) "Mr. Gould could be in "G - Unit" or a super hero because he could save lives with math."

.....
Anne Philo ('07) "If I could be any teacher, I would choose to be Mrs. Dupuis so that I could read **To Kill a Mockingbird** every year and then teach it."

.....
Greg Davis ('07) "If I could change the school mascot, I would change it to Dan Siders [maintenance] because he is the man."

.....
Nate Zantow ('06) "I think the teacher and the student who are most like each other are Mr. Gould and Alex Wiley because they are both really super neat kids."

.....
Traci Moklestad ('08) "If I could give advice to anyone trying to change things about their life I would say, 'Each day is a new day!'"

FAST FACT

"I don't do much of anything. I do enjoy being treated to some fine food every once in awhile, though."

Joe Lanstrum ('05)

.....
WORKING in class to complete assignments is important. The rewards are worth it." •Brett Dunnick ('06)

Congratulations to Class of 2005!

•PRACTICING the piccolo in the band practice rooms, Jessica Colvin ('05) uses her open campus time to work on concert music. Band members found that there was rarely enough time to go over music during band practice so they had to use their own time to practice for lessons and concerts.

MUSIC HITS THE EARS

Participation in the music program provides opportunities for high school and the future

To some, playing an instrument seemed like an impossible talent. For those who were in band, the skill became automatic.

Taking lessons since the age of nine or ten sounds incredible. However, when compared to little league baseball and softball, it wasn't too over the top.

"I knew when I started band that I wanted to become as involved as possible. I found that working sometimes made it difficult though," senior **Hilary Knox** said.

The benefits of band played well into the future. Sometimes, students continued with band once they got into college and other times, they just took advantage of the municipal band and played in summer concerts.

"I didn't know how much I would enjoy band until I found the

break it gave me while I was studying," senior **David Imberti** said.

In addition to concert band and contests, the members participated in marching band. Several had the opportunity to work with the ISU band members in order to create some halftime productions. Mrs. Melissa Smith's husband was the ISU marching band director.

•EXPERIENCING a typical band moment, Molly Haberl ('08) goes over the music for competition. Students, especially freshmen, wanted to experience as much as they could while they were in high school.

TESTING 1,2,3...

HANNAH TRIPP ('05)

"I tried to hang in there for the year. But once the warm weather started, that was it!"
•Anthony Wood ('06)

•**GOOFING** around and playing some poker, Jacob Schmidt ('06) entertains web design students. Because of the increasing popularity of poker, students played the game more often in school.

•**SWINGING** in a whole new way, students head to McHose for a cool fall day of play. Students often received a fine for being in the park after closing hours.

DAYS FILLED WITH ENTERTAINMENT

Students find variety of ways to cope with school

•**DISCUSSING** an assignment in class, Alex Edelman ('06) goes over some of the problems with the group work. Alex said she learned more computer skills during the year.

•**GOING** back to her childhood memories, Ashlee Delance ('05) enjoys time on a slide. Students often went to McHose Park for fun.

TESTING 1,2,3...

GABE LANZ ('05)

"My best pick up lines are 'Did it hurt? When you fell from heaven? Call the cops! She just stole my heart!'"

HEADING TO FINAL

Throughout the years, it became more and more important to check out the requirements for graduation.

•**HEADING** down the hall to class, Joe Graham ('05) and Ian Nelson ('05) try to wake up. First hour usually was the most difficult for kids to attend on time.

•**PROJECTS** in class mean that there may much discussion about how to handle the division of duty for seniors Jess Thompson, Matt Beyer and Iva Meyer.

•**LOOKING** for trouble, Joey Byriel ('07) attempts to do a little weightlifting by using a student desk. Students often tried to get the attention of the social studies teachers sitting at the end of their hallway.

•**CREATING** a special effect, Holly VanCannon pushes her face against the plastic on the children's slide. Students went to McHose for photography

Waiting for attention

What's your best distraction?

Leah Clark ('07) "I like to run. I try to get up early in the morning during cross country but then after that season, I try to run any time that I have an hour or more to spend doing it. I also work at my dad's store."

.....
Michelle Farley ('05) "I like to spend time with friends and I like to dance."

.....
AJ Smith ('05) "Spending time with my friends is the best way to spend time. I don't care what we do but it usually revolves around poker or some kind of sport."

.....
Mr. Ted Hora (Business Ed.) "I try to spend as much time as possible with my family. I was in Afghanistan last school year and I missed them every day. I can't get that time back but I can make sure I take advantage of it now."

.....
Will Oatman ('05) "I enjoy working with the drama productions. I find the time I spend here helpful with my selection of a future career. I also get to spend time with friends when I'm doing it."

FAST FACT

"I don't do much around the house and my mom doesn't like that. I am real good at spending time with friends, though.
 Jessica Nelson ('08)

•**WORKING** out so that I can try to become a better athlete.
 Ben Bachman ('08)

•**GOOFING OFF** with their siblings, David ('08) with Tim ('06) Darby and Danny ('05) with Jess ('08) Jenkins attempt to show what it's like to have a sibling in the same building. "We actually get along pretty good and don't fight much at all," Tim said.

SIBLING RIVALRY KNOWS

Sisters and brothers find ways to get along while in school even if it is hard to do at home

Trying to figure out the birth order might help some people as they tried to figure out how to get along with a sibling.

"I try to get along with my younger sister [Jenny ('07)] because I would think it would be nice to have an older brother. I even have tried to help her with homework at times," senior **Aaron Mack** said.

At times, the brother and sister didn't really do much together but they knew they could depend on each other if there was ever a need.

"My older sister tried to help me figure out what classes to

take in high school. It's good to have someone who knows this," freshman **Bryant Knox** said.

Sometimes the benefit of a sibling is just having one.

•**TRYING** to talk over the troubles of being sisters, Emma ('05) and Amanda ('06) Reinertson meet in the hall. "We get along and share clothes when we find something that fits both of us," Emma said.

TESTING 1,2,3...

TWISTIN' AND TURNIN' TO BECOME FLEXIBLE

•**TRYING** to stretch before PE, Nichole O'Rouke('06) watches the leader to see what to do next. Students met for PE every other day and had to pass the class each year in order to graduate.

NEED TO KNOW

JUSTIFIED OR NOT JUSTIFIED?

Being a gentleman means that you carry the books and anything else your girlfriend has in her hands?
True or False

•**Preparing** to work out above Emily Hayes middle Erin Cain and bottom Emmy Truckinmiller ('06) warm up before an intense game of volleyball. Every student must take pe.

Physical education prepares students for the lifelong habits that will keep them healthy and in shape.

DO YOU THINK PE SHOULD BE A REQUIREMENT FOR GRADUATION?

It might be my opinion but...

"No, because we can find our own ways to get into shape."
Tyler Cartee ('07)

"Yes and no because obesity is a problem and that is bad. I hate it though."
Jenna Cornelius

The number one complaint about graduation is the PE requirement that some don't meet.

"I hate to go to PE and fell behind on credits toward graduation. I knew I wouldn't graduate so I went to futures to catch up and be sure

that I would graduate with my class. It was worth it."
Iva Myers ('05)

"I think there are too many obese people in the nation and we need to do what we can to help people stay in shape."
Pat Schaefer ('05)

"The class is not a punishment for the students. We have

shown them studies on how good habits formed today will be live-saving measures for the future."
Mr. Rick Davis, PE

"I think the athletes should get the credit for PE. In some schools if you are out for a sport, you don't have to take PE. I think that would be good."
Ryan Greco ('05)

The nation is in a crisis because of the poor eating habits and lack of exercise in daily routine.

TESTING 1,2,3...

NICK ELLIOTT ('05)

"My biggest fears are dying, moving out and moving away."

CREATING A PROM

At one time during the year, it was questionable whether the juniors would actually decorate for the Prom.

•**LOADING** up on the streamers, Ryne Hilsabeck and Sean Ahrens climb on the top of bleachers and begin to attach the paper. This was no job for those afraid of heights.

•**WORKING** as a group, juniors try to make cardboard look like things found on a treasure island. The cardboard came from the appliance stores.

•**SHOWING** what paint can do to hands, Lauren Hackenmiller tries to threaten Tara Sebring with a little color. In addition to the work, there was also a lot of fun included in the decorating process.

•**TRYING** to figure out how to do a job that they weren't sure of, Kendra Elsberry and Sarah Hodgson work on taping the decorations together.

Juniors give to seniors

What's your favorite part of prom?

Jess Noelck ('05) "I absolutely loved my dress and shopping for it. I wanted to get the most perfect thing I could find and you know what? I did! I will treasure that special night for the rest of my life."

Kaci Busch ('05) "I loved seeing all the dresses and just being with friends."

Kelly Pohl ('05) "It was fun being on Prom court. I didn't expect it and when I was told I was on it, I couldn't believe it. It was a nice group of kids on court."

Mr. Verlin Potts (Art) "At one point in the game, I would have said there was nothing that was my favorite. But then, as usual, the junior class all pulled together and it turned out great."

Kendle Cook ('05) "I had a lot of fun going with a big group of friends. It didn't have to be a serious time and we all could just be ourselves. It was fun getting together and having our pictures taken. It was all good."

FAST FACT

"I didn't get to help much because I had a "broken" arm which prevented me from moving it."
Eric Frank ('06)

•**WORKING** on a special project, Brett Dunnick tries to add just a little of his talent to the decor.

Congratulations to the Class of 2005!

•**ACTING** like they were just about done with the job, a group of junior boys take the simple way out and sit on the bleachers to do their work. Many of the juniors were tired on the Friday of decorating because they had a class campout the night before. Aubry Haberer and Brittanie Feldman try to figure out the best way to paint and stay clean.

PROM SPEAKS MEMORY

Students learn that putting a prom together was more than fundraising and shopping

At one time, the Prom was a gift that the junior class gave the seniors. Everyone was appreciative for the hard work and little complaining took place.

The goal of the "Treasure Island" party was to have better decorations than the year before. To many, that goal was accomplished.

"Last year they had a lot of kits to put together and it looked like cardboard. We really pulled together to work with the stuff we had and make it look really cool," Kevin Wailes said.

In an attempt to avoid fundraising as in the past, the class sent out letters to the

parents of the class, asking for donations. In the past, the class sold cheese and other things. The letters earned more money than the past fundraisers.

•**FINALIZING** the streamers, Tara Sebring and Shannon Clayton sit on top of the lift in order to connect the streamers. Someone stood below and threw the paper up to them when they ran out.

WANTED: New educators for the future

•**VISITING** with new superintendent, Dr. Theron Schutte, a student talks about the advantages of becoming a teacher. The Boone Community School District was just one of the many employers represented at the job fair.

NEED TO KNOW

JUSTIFIED OR NOT JUSTIFIED?

The time spent out of classes was not used just to waste time but to introduce students to the more formal atmosphere of talking about jobs.

SYMBOLS of money and employment varied as representatives took the time to visit with students about ways to prepare for future careers.

Planning a career can be a lot easier if students get a chance to talk to professionals about it first

DO YOU THINK THE CAREER FAIR WAS WORTH IT OR JUST A WASTE OF TIME?

It might be my opinion but...

"It was fun getting out of class to get my hair done."
Ashley Knowles ('07)

"We got to go around and get free things. I collected pens and pencils."
Isaac Wolf ('06)

The gym became a new place with tables set up and business people ready to talk about getting a job.

"We got out of classes in the morning to go down and just hang out with friends. It was fun and yet I

think some people got something out of it."
Eric Frank ('06)

"We tried to talk with the people that would give us prizes and free things."
Brian West ('06)

"Some of our teachers wouldn't let us go so not everyone got to go down there. I don't think

that is fair."
Rachel Woiwood ('07)

"We used the time to goof off. I do think it is a good thing, though."
Haylee Burma ('07)

"I think we should have more things like this because we don't have class and it's informative."
Dana Wade ('06)

"The purpose of providing this kind of thing is to give kids new opportunities." Mark Hanna, Counselor

TESTING 1,2,3...

STEPHEN DOSS ('05)

"I TP'd Owen Berg's house with 7 of my friends and we had to run from the cops."

BOWLING GRADES

PE was a required class and students had varied opinions on the difficulty of the different units of study.

•**TAKING** a break, seniors not only get to bowl, but they also get to eat while they are at the bowling lane. Mrs. Madson warned students to use the time to work on improvement.

•**CELEBRATING** a possible strike, Calista Crouthamel ('05) enjoys the time at the lanes. Seniors traveled by bus to the the bowling lanes.

•**USING** a little body language, Ben Borsos ('05) attempts to get the ball down the center of the lane. Seniors got to go bowling during PE and the juniors spent time roller skating.

•**SHARING** an assignment before heading to class, freshmen Tyler Wrabek and Rachel Wicks make sure they have done it correctly.

Working for food

What would you do for it?

Angela West ('07) "I volunteer to work in the attendance office during my study hall because I get to run around the halls during the class period. I also get to have some of the food teachers bring in."

Dane Titman ('07) "I am used to having food whenever I want it. I don't have to work for it."

Jess Robinson ('06) "It's great to take publications and journalism because we can have pot-lucks for deadlines. I am famous for my pickle wraps."

Courney Williams ('05) "I took MOC from Mrs. Dufelmeier. Usually, we don't get to have a break much, but for our graduation, she brought cake and punch for us. It was a really nice thing to do."

Anna Sunstrom ('05) "I became involved in the Spotlight and in drama just because of the relaxed atmosphere. We get to bring food after a deadline in journalism and we get to bring food to practices in drama."

FAST FACT

"I tried to become as independent as I could. I tried to go out for different activities as well as study a little."

Karl Billings
('08)

•**WORKING** in class to get an assignment done, Matt Reinken ('07) concentrates on getting a good grade.

Congratulations to Class of 2005!

RECEIVING instruction on the correct way to load a dishwasher, Mrs. Rhonda Getschman helps Dan Schlieman ('05) after they served a dinner to a group. The Chef-a-tears spent much of the second semester catering small meals and making cookies and bars for the entrepreneur class. The four chef-a-tears were seniors Dan Schlieman, Pat Schaefer, Jeremy Pritchard and Ryan Greco.

CONSUMER ADVICE

Family and consumer sciences offer students variety and scholarships for taking classes.

Trying to figure out what classes to take often left people wondering what they would have to do to make a change later in their schedules.

"I didn't think I would ever want to take any class that would require that I learned about babies or food, but I did. I loved it. Mrs. Getschman and Mrs. Wells are the reasons that people want to take these classes," senior **Michelle Laube** said.

The FCA department once started out teaching about cooking and sewing. Over the years, the changes happened and students began taking more than one class.

"In order to graduate, students have to take one vocational credit. They usually take a Foods class for that and then move on to the some of the other things that are offered," **Mrs. Carolyn Wells**

said.

Baby-think-it-over is used in the parenting classes. There are two different kinds of babies. First year students took a baby home that was easier to take care of. The second year students took a special needs baby home. This baby required more attention. They also had to keep the baby for a full week.

LEARNING about the need for good nutrition, members of the FCS classes, take the information and apply it to daily life. Students took classes in order to learn how to survive after graduation.

STUDYING WORKS

Being prepared for classes helps not only with grades but relieves stress

•**CHECKING** out their chemistry lab assignment, Sarah Elis ('06) and Emily Olson ('05) work together by reporting results for recording. Mr. Bowman required that students write labs using correct scientific and grammatical text.

•**WORKING** with the math student teacher, Nick Kriegle('07) tries not to laugh as Brett Warrick and Jesse Frank ('07) ignore him. Many students find it nice to have student teachers in the classrooms.

•**USING** a karate chop on his birthday cake, Brad Myers ('06) entertains his friends with an unusual move. Friends met at Alex Edelman's ('06) house for the party.

FAST FACT

Because of the importance placed on open campus, fewer students came to class tardy the second semester compared to first.

WORD TO KNOW

DRESS CODE

Even though the new rule won't go into effect until 2005-2006, the students participated in writing the guidelines for the new dress code.

-FINISHING an assignment, students try to concentrate on getting it done correctly. Because students often left during their study halls, they had to work harder in class to get the work done.

-HITTING the books in the halls, Sam Duffy ('06) tries to get an assignment done before class. Students tried to get as comfortable as they could in the halls in order to do their work there.

STUDYING CHALLENGES

Trying to hold down a job and get homework done takes the patience many don't have

Staying in school and yet holding down a job wasn't the easiest thing a teen could do. However, because of the importance of a diploma, school still had to come first.

"My teachers say that school has to come first but I can make more money at my job than some of the teachers so why take time out to study?" senior **Joe Graham** said.

Teachers tried to be as patient as possible with the employment situation. However, they didn't give in much if students were late to class because they overslept.

"I understand that kids need jobs. I would never tell them not to work. I do have problems with freshmen and sophomores working so many hours," math teacher **Mr. Doug Gould** said.

The law stated that students under the age of 16 could not

work past 8:00 at night. However, many students could tell you that there were employers that violated that law.

"I know that younger kids work at some places in town past 8:00. They just can't complain about it or they will lose their jobs," senior **Joe Craven** said.

Studying and working added to budget and stress.

-USING the IMC to work on a research topic, Liz Bravard ('07) gets away from everyone else in order to do her work. Because the halls often were noisy, students had to look for a quieter place.

TESTING 1,2,3...

•**CREATING** a rope pot, students try to keep things even so that the pot will not collapse. Students tried to make pots on the wheel as well as the rope pots.

•**COMPLETING** a writing assignment, Chealse Cattanaach ('07) gets ready to hand in her homework assignment. Students usually received time at the end of the class periods in order to complete assignments.

Learning to hammer

Construction class meets new teacher and faces new and challenging projects

It's always difficult to meet a new teacher. Especially when the previous one developed a good rap with his students.

At the beginning of the school year, the Industrial Tech department welcomed a new teacher, Mr. Tyler Patton. He was in charge of the construction and blueprint classes.

"I wasn't that convinced that Mr. Patton was going to be able to handle us. By the end of the year, he proved to us that he knew what he was doing," senior **Eric Baker** said.

The projects done in the classes varied from small frames to large gun cases. The students learned how to handle the power tools as well as read blueprints.

"I tried to do things that showed me how to do harder things in the future," senior **Stephen Doss** said.

Another project done in the

construction class was small buildings. The community was not as involved in volunteering projects, just because money was tighter than in past years.

"We started a garage at the end of the year. Because of the rains, we had to stop for a while. I am thankful for those who came back the last week to finish it," **Mr. Patton** said.

•**DISCUSSING** the right way to handle the construction problem, Danny Jenkins ('05) tries to convince Brian Price ('05). Students started from scratch when they took the class.

TESTING 1,2,3...

SAM DUFFY ('06)

"On snow days, I looked up facts on the Internet because if I don't know everything about a subject I like, I feel awkward."

RECOGNITION

Students and teachers show appreciation to administration for support of journalism and publications programs.

•**VISITING** with other administrators, Mr. Joe Kirchoff, superintendent, Mrs. Carolyn Clark, Asst. Principal, and Mr. David Kapfer relax at the reception held in Kapfer's honor.

•**SHOWING** the certificate he received for Iowa High School Press Administrator of the Year, principal, Mr. David Kapfer acknowledges his surprise to advisors Jane Dupuis and Ann Haugland.

•**GOING** through an interview with Matt Carlson of the BNR, Mr. Kapfer is surprised by an impromptu faculty reception in his honor. The newspaper and yearbook staffs hosted.

•**GETTING** ready to explain how to raise sheep, Emily Hansen ('07) and Jarrett Oson ('06) check to make sure the animal is clean.

Talking to the animals

What helps with distraction?

Jessica Thompson ('05) "I tried to get as involved as I could in FFA. I particularly wanted to get involved in the pork queen contest. I studied as much as I could and represented the county at State."

Jordan Cook ('06) "I took some of the ag classes because it was a break in the day."

Brian Derry ('08) "It's a good idea to take some of Dodd's classes. He has more knowledge about agriculture than anyone else around. You couldn't learn this in college."

Dan Foley ('08) "I knew that I was interested in some of the ag classes. I love being around the animals. I also like the field trips that we take during the year. The state conference was the best."

Donald Burkhart ('08) "I became much more involved in the ag classes than I ever thought I would. I have always had an interest in farming. I live outside of town and have grown up seeing what the life is like."

FAST FACT

"I wanted to see the faces of the little kids when they saw the animals."
Jenny Hansen
(05)

•**HEADING** down the shoots, Brian Bielfelt ('05) checks to see if they are set up correctly for the petting zoo.

•**HANDLING** a calf at the FFA petting zoo, John Logue ('07) tries to explain the benefits of raising farm animals such as the pigs above. The chapter raised hogs, calves and chickens and sold them after butchering them.

TESTING 1,2,3...

DEREK PROUTY ('06)

"If I could go anywhere on a road trip, I would go to Montana because you can go 80 mph."

PEER FRIENDSHIPS

Peer helpers help with the academic as well as the entertainment

•**KEEPING** score, Chelsey Truckenmiller ('07) tries to keep track of the basketball game as well as pie sales. The peer helpers used the benefit basketball to raise money for needy people.

•**COORDINATING** the sales of the desserts, fans try to convince others to get involved with the spirit. The goal of the group was to raise the bids on homemade foods, all in fun and all in an attempt to get some great treats.

•**REACHING** to the ceiling, Mallory Hicks ('05) makes an attempt to intimidate the opponents. The boys and girls basketball teams played as well as any other students who wanted to play.

COMPETING for the good team, Brittni Larson ('05) goes up against the guys to score some points. Players at the benefit basketball game played as hard during that night as they did during their regular season.

FAST FACT

Students helped others with their classwork. Peer tutoring involved both elementary and middle school students.

WORD TO KNOW

VOLUNTEERISM

Students gave freely of their time to help others. In return, they received community service points and credits toward graduation.

•**SENIORS** had more than their share of fun at their last peer helper benefit ballgame. Pat Schaefer, Danny Schlieman and Owen Berg cheer on their teammates in order to get them all riled up.

•**GETTING** a kick out of the players' crazy moves, seniors Ashlee DeLance and Kayla Toms find it hard to believe that their friends could act so crazy. Students tried to let everything go so they could entertain the crowd and make as much money as possible.

Artistic efforts speak volumes

Taking some of the classes allows students to express their creativity and intelligence

The classes that offered a chance to do more than just read a book and take tests began to attract more students every year.

Students constantly worked to fit hands-on classes into their daily schedules.

"I just wanted to have a break during the day so I took an art class. I wasn't that good, but I tried it," junior **Joel Kramer** said.

Another class that attracted students because of the variety was advanced speech. Students gave speeches in addition to editing video.

"We got to produce the senior video. I can't believe how much it takes to do that," senior **Libby McGrath** said.

The school day was busy for everyone but the day went faster if there was activity in the class.

•**FINALIZING** a project in graphic arts, Ryan Billings ('05) tries to add some color to his concept. Students provided ideas to Mrs. Howe and then attempted to draw out the concept.

TECHNOLOGY HELPS STUDENTS WITH WORK

•**ADJUSTING** an overhead projector Abby Schmidt ('07) tries to get her work to fit the space on the wall. Much of the time that students spent in the hall required that they try to figure out how to do things with little teacher help.

•**CLASSROOM** attention means that students pay look for ways to look like they are listening to the teacher. Most of the time, daydreaming was more on the minds of the students.

NEED TO KNOW

TO STUDY OR NOT TO STUDY

On the average, students said they spent no more than 2 hours a week on homework. One of the reasons was because of jobs, another reason was because they could get work done in class.

WHAT DID TEACHERS DO THAT MADE YOU LIKE TO GO TO CLASS?

It might be my opinion but...

"I always hated to play games. Just give me the work and I'll try."
Stephen Merk

"I try hard just because I want to make sure I stay eligible for my sports."
Dan Lynch ('07)

Grades tell parents and kids that the class was either too hard or kids didn't try.

"I liked the kinds of things we did in journalism. We spent time trying to decide what we want for the next issue and then worked as a team in order to get it all

done."
Joe Indvik ('06)

"Mrs. Sears was crazy. I tried to make sure that I was in class every day because she was so funny."
Tory McMahon ('05)

"I liked the way Mr. Behm tries to convince us that Shakespeare is a

good writer. I thought we would hate reading it but it was so much fun...especially the sword fights."
Sterling Heiner ('06)

"Taking foods classes and the textiles classes really helped me. I hope to use this in the future."
Ashley Reuter ('05)

"They do little for me to want to care."
Jordan Cook ('06)

The big test at the end of the day was did you have the answers right on when it came to learning.

Teachers try to get the attention of the students. At times, the strategy works because kids like entertainment.

TESTING 1,2,3...
