# EXPAND

For some high school students, the clubs and organizations available to the student body are the most important functions.

Not all students take advantage of the functions available, but the ones that do, enjoy the time they receive in the year.

The upperclassmen encourage freshmen to try as many activities as possible to determine what is right for them in the next three years. Whether they decide to continue in the organization or not, students gain knowledge and adventure that can be applied to future experiences.

# Student Council

## Standing Strong

At the beginning of every year each student receive a ballot with a list of names on it. This voting is for students to decide who they want to be the leaders of the student body. The students that are selected help around the school throughout the year to make the school better.

They decorate for all school dances and help clean up. Organizing homecoming week is a huge part of student council where they must come up with fun ideas and support school spirit. Also a big part of student council is to make every student at Boone High feel special. Freshmen Mason O'Neill said, "I like student council and I plan on doing it the next three years!"

Every year the group goes bowling and has a barbeque at the end of the year. Student council is not only fun and games however. Students help around the school and do various activities throughout the year. In December, a group of students go to Adventureland and participate in a leadership conference with other student council members from different schools. For student council members each school year is another opportunity to have fun, work hard, and help out the school and community in new ways.

## Lights, Camera, Action!

Palms sweating, heart rushing, nerves kicking in. These feelings may be effective right before a BHS actor takes the stage. Putting a high school production together takes a lot of hard work, patience and skill. "My favorite high school memory so far has been 'Grease.' It was so much fun and made me realize how much I want to be in musicals for the rest of my life," said junior Hallie Cook.

BHS productions for 2008-2009 included the 70s musical "Grease" and a court case titled "The People Versus Maxine Lowe." "I love performing on stage and knowing that I'm making the audience laugh," said senior Lauren Cook.

All of the BHS productions received excellent feedback. Mary Neumayer, director of the drama department, always finds a way to create a vibrant cast that captivates its audience with superior acting skills. If attending a BHS production, one can always expect an eventful show full of laughs and amusement.

### Lending Out a Helping Hand

Fellowship of Christian Athletes and Advisee Student Leaders are excellent organizations to be a part of if a student wants to take part in a special group of people.

FCA is an organization that involves playing athletics with fellow peers. Its vision is to see the world impacted for Jesus Christ through the influence of athletes and coaches. "I joined FCA as a way to have fun with other people who share the same faith as I do," said junior Spencer Troe.

ASL is a chance for seniors to help out the freshmen class on getting through the difficulties of high school. During advisee meetings, seniors report to a freshmen advisee and talk about different issues facing the freshmen. "I love being able to reflect on my four years of high school and answer freshmen's questions," said senior Abby Noelck.

There is no doubt that BHS is packed with organizations for all students to join. Whether a student is an athlete or a leader, there is a club that fits his or her interests.

Acting tough, senior Hannah Worrall spends the day paintballing for an FCA event.

## Chess Club

The Chess Club was a new program to BHS. Any student that knows how to play or wants to learn how to play chess is allowed to attend the weekly meetings. During meetings, chess players work on strategies or opening moves, they might casually play or play a tournament to decide a champion. There might even be a guest speaker at some meetings, teaching the chess players about the game. The chess team doesn't play in regional or state tournaments, but it is a major goal.

Grant Pomerenk ('11) and Brett Anderson ('11) proudly participate in the Chess Club which was started this year.

## Mock Trial

The full purpose of Mock Trial is to help students work together, improve public speaking, and to develop and work on critical thinking skills. It is a regional competition that a team of up to ten students can participate in. The team receives a civil or criminal case and prepares the case on both the plaintiff and defendant sides. The Mock Trial team picks students to represent the witnesses and attorneys. There is no memorization needed in this program, the students develop their own character from the script.

Below: Mock Trial participants: Dillan Newbold ('10), Alex Bacon ('10), Morgan Proksch ('10), Colin Weaver ('10), Doug Baker ('10), Erin Soderstrum ('11), Melissa White ('11), and Bailey Herrstrom ('10) spent many hours preparing for competition.

Blake Bingamin ('12) participated in ExCel activities.

Matt McKenna ('09) got involved with the chess club.

"It was my first year, I really liked it, and I learned a lot," said Melissa White

"Mock Trial was fun," said Erin Soderstrum ('11).

# National Honor Society

The National Honor Society is based on character, leadership roles, and community service. It is available to juniors and seniors who have a cumulative GPA of 3.5 or higher. Members have monthly meetings where they organize and conduct service projects in the community. Each member is required to put in individual service hours. New members are recruited in March for the following year.

**NHS students participate in the annual ceremony.**

# Academic Team

The Academic Team is an extra curricular activity that students grades nine through twelve can participate in. The weekly practices are very useful when it comes up to the contests throughout the year and nationals. There are an average of 12 contests a year. At the weekly practices, the students work on academic questions for all core classes such as English, social sciences, mathematics, and science; other categories include music, art, sports, government, and current events.

**The Academic Team earned a trophy at competition.**

**Far left: Members of quiz bowl compete locally. Left: The academic team practices questions.**

"NHS is a good thing to be part of and I'm glad that I was apart of it," said Jessica Kelly ('09).

"NHS is such an honor to be in. It is a great opportunity," said Michelle Waldo ('09).

"You can't spell team with out Alex," said Doug Baker ('10).

"The academic team shows that there is no such thing as useless knowledge," said Alex Bazis ('10).

# Peer Helpers & Key Club

Students who participate in clubs like Peer Helpers and Key Club always know the value of serving the school and the community. They help raise money for organizations, volunteer in the community, and help out other students.

Key Club members have fun doing their yearly projects. "My favorite activity is Shop With a Cop. It is a lot of fun," said senior Lauren Cook.

Whether it is helping out people in the community or other students in the Boone school system, members of Peer Helpers and Key Club always have a lot of fun doing what they do.

Kelsey Reynoldson ('09), President of Key Club, prepares to start a meeting.

Trevn Lee ('10) said, "I enjoy Peer Helpers because I get the opportunity to help others."

Bill Hitt ('12) poses to have his body outlined to represent a person killed by tobacco each year.

Marjie Tometich ('10) and Ashley Lobaugh ('11) volunteer to become members of SADD.

# SADD & JEL

Participants of SADD (Students Against Destructive Decisions) and JEL (Just Eliminate Lies) help other students find fortune in living a substance-free life. The members of these clubs sponsor activities like Red Ribbon Week, Grim Reaper Day, and other activities to inform students about the dangers of harmful substances.

Junior Sonja Kretzinger, a participant of SADD and JEL, enjoys the activities that the clubs sponsor: "Grim Reaper Day is fun but difficult. I enjoyed not talking for a day, which is rare for me."

SADD and JEL members work together to influence students to stay away from drugs, alcohol, and tobacco and to Just Say NO!

# Speech Team

## Arguably the Best

Don't plan on having an argument with these kids and winning. They can talk for hours and hours without coming to a halt. The BHS speech team does an excellent job of captivating their audiences with persuasive dialogues.

There are many different types of speech that a student can pursue. Some of the group speeches include choral reading, improvisation, ensemble acting and musical theater. There is also a solo speech team as well. "I like being in speech because it is a lot of fun and I am good at speaking in front of people," said senior Adam Houston.

If a student particularly likes talking in front of a large group of people, then speech team is the answer. "Think of 'Who's Line Is It Anyway' and then think of my team being better," said senior Josh Frank, member of the improvisation team.

Whether it's improvising or stating facts, the BHS speech team always gives 100%.

# Drill Team

## Let The Bodies Hit the Floor

The BHS Drill Team did an outstanding job at the state level. They received division one ratings for hip hop and lyrical, and a second place trophy for production. The Drill Team members are all dedicated girls and work really hard to be where they're at. Junior Erin Malloy said, "My favorite part is going to the NDA camp every summer, and while we all like to complain about practice, we know its worth it when we perform."

Tryouts are held in spring of the previous year and they begin to have practices during the fall to perform for the homecoming pep rally and game. The main time to perform, though, is half time of the boys basketball games. Senior Bailey Bargloff said, "Drill Team is a lot of fun this year because we all get along and that makes performing more fun."

# Yearbook & Spotlight

## Telling the Stories

**M**aking sure the BHS stories are told, students involved in both Publications and Journalism had a lot of weight on their shoulders. A typical day was filled with deadlines, layout designs, and hard work.

In order to successfully reach the deadlines, students had to write stories, take pictures, get quotes and do a final edit of an article by a certain date. "It's a long and dedicated process to make a page layout because it's difficult to summarize an entire event on one page," said senior Natalie Koenen, member of the yearbook staff.

Even though there may have been a lot of work to do, the students still managed to have some fun in class. Occasionally to celebrate a successful deadline, the Spotlight staff and yearbook staffs had a potluck to release the stress. "After the stress of deadlines it was nice to have a fun and relaxed day to just hang out with everyone before break," said senior Maggi Schutte.

Although getting the dirt on all the happenings of Boone High may have been a challenge, it was all worth it to give the students adventures to read
