

FRESHMAN

I'll dare to dream and keep my dreams alive,
I'll dare to set new goals toward which to strive,
For dreams are blue prints for success ahead.
And goals are food on which ambitions are fed.

SOPHOMORES

WE'VE ONLY JUST BEGUN
by the Carpenters
(revised version)

We've only just begun to live,
With books and promises,
A kiss for luck and we're on our way.
And yes, we've just begun.

Before the rising sun we fly,
So many roads to choose,
We start walking and learn to run.
And yes, we've just begun.

Sharing horizons that are new to us,
Watching the signs along the way,
Talking it over among all of us,
Working together day by day.

And when the evening comes we smile,
So much of life ahead,
We'll find a place where there's room to grow,
And yes, we've just begun.

When you talk,
You say something you know.
When you listen,
You learn what someone else knows.

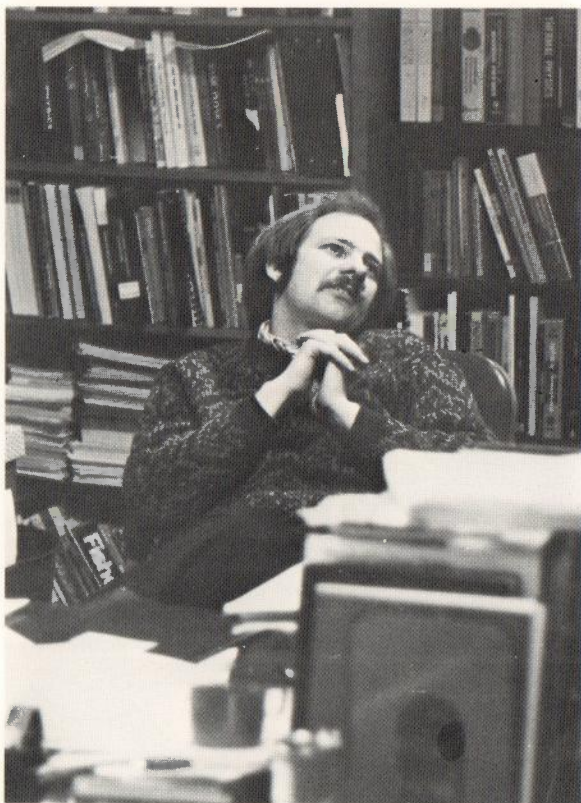

Gripe sessions, fire drills, and quiet solitude mark the life of Des Moines Area Community College, Boone Campus.

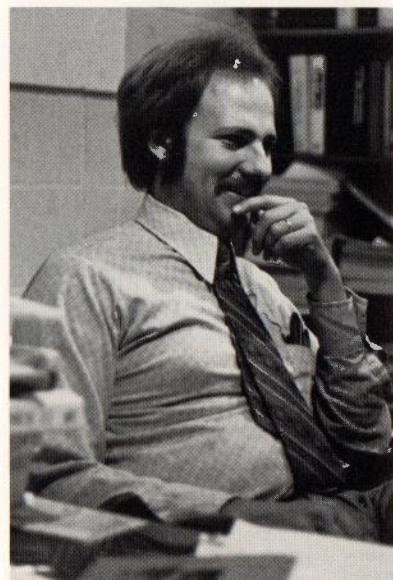

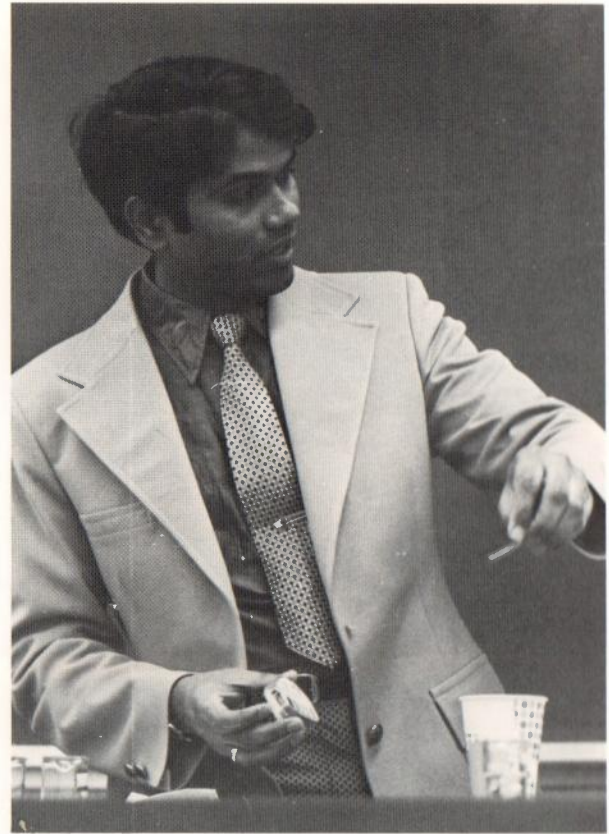

Passing through the halls of our school, glimpses of student life can be seen everywhere. In the halls, discussions on just-taken or upcoming tests are held as students in the lounge cram a few last notes into their head and an ice cream bar in for lunch.

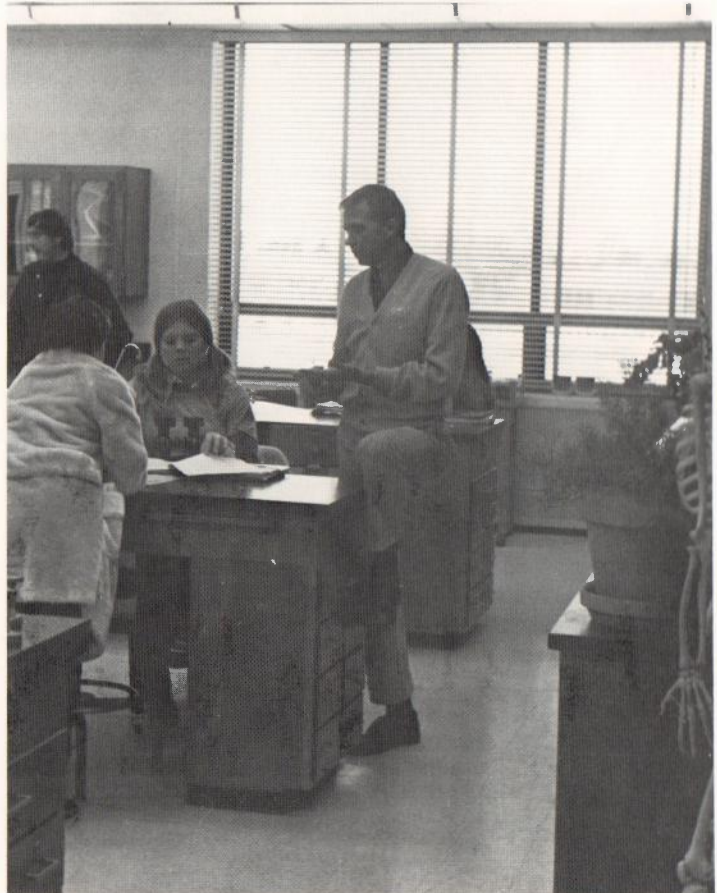

**Relaxation and work, always time for both
for the faculty and staff of Boone.**

Throughout the year, instructors at Boone Campus have guided their students through many tough classes and exams by holding conferences and giving personal guidance.

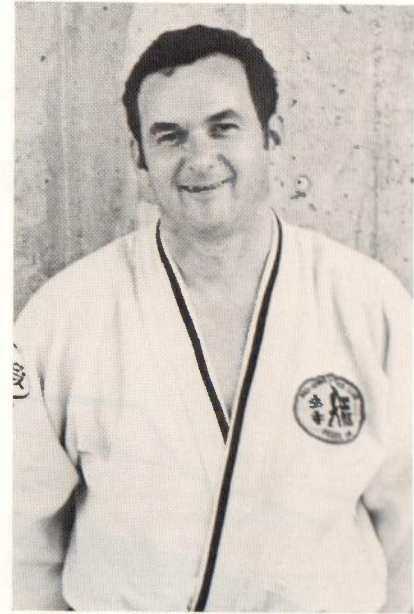

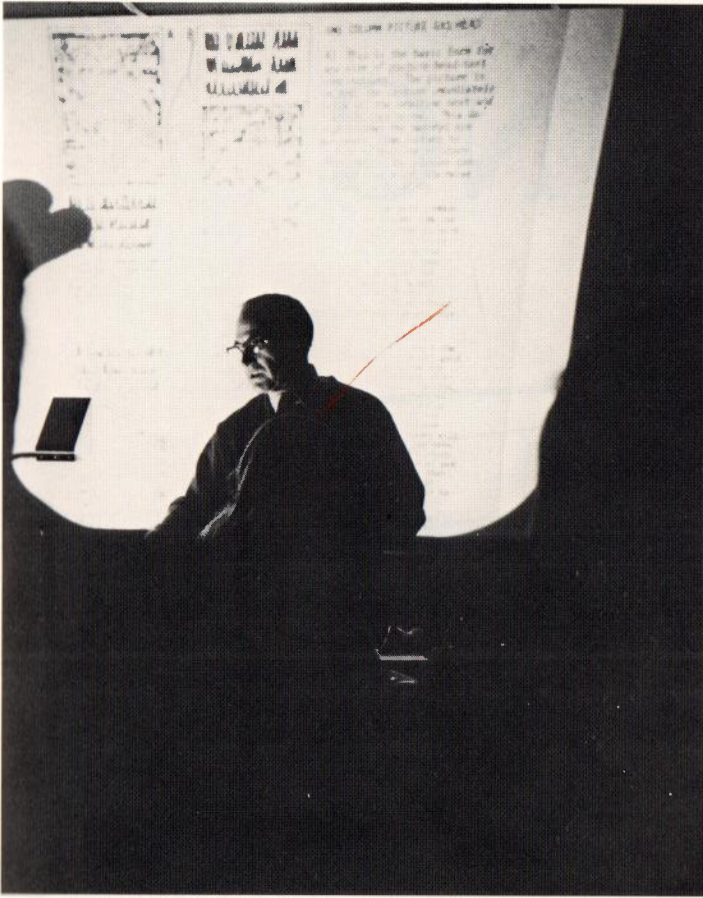

The "Spring Festival for International Food, Fun and Frolic" (May 8-9, 1974) highlighted the International Awareness Week (May 5-12, 1974) at Boone Campus. Display Booths, located in the student lounge, were opened to the public Wednesday, May 8th. Booth competition found the Ethiopian Booth the winner with Scandinavia and Mexico finishing second and third, respectively. That evening an international dinner, featuring food from different countries, was held. Dr. Fernandes, coordinator of the event, is faculty advisor of the Cosmopolitan Club, an organization for the advancement of international understanding on the Campus. Ticket sale proceeds went to start a Cosmopolitan Club library.

NURSING

THE VALUE OF A SMILE

A smile costs nothing and creates much.

It happens in a flash.

And the memory of it sometimes last forever.

It can not be stolen.

It is of no earthly good to anyone.

Until it is given away.

The opposing pole to living is not dying, but existing. It is the countless people existing in pain and unfulfilled living to whom nursing dedicates itself. The belief that each individual is endowed with the potential for creative living underlies the goals of the profession and inspires the men and women who enter its study.

The Des Moines Area Community College Nursing Program endeavors to prepare its students to help meet society's current health care crisis by helping them recognize and deal with the human potential as faced by all its citizens in normal and abnormal health. The primary goals of the program are the recognition by the students of their own human potential, the development of people who care when others do not "live" but exist, and the education of people willing to play roles in the alleviation of these human miseries.

The expanding number of citizens with health care needs is producing expanding roles for the nursing profession. Men and women willing to become patient "advocates" in the quest for adequate, economic, health care in the United States are moving into professional frontiers filled with possibility for a new kind of nursing and new nurse-patient relationships. Independent practice, establishment of well-patient clinics and specialization in many varied nursing techniques offer challenging new career opportunities. The rights of all humans to pursue the opportunity to reach fulfillment of their capacity for living in an atmosphere of security, safety and health is a principle advocated by those practicing good nursing care. It is to those seeking such care and careers that the Nursing Program is dedicated.
