

Commencement 1971

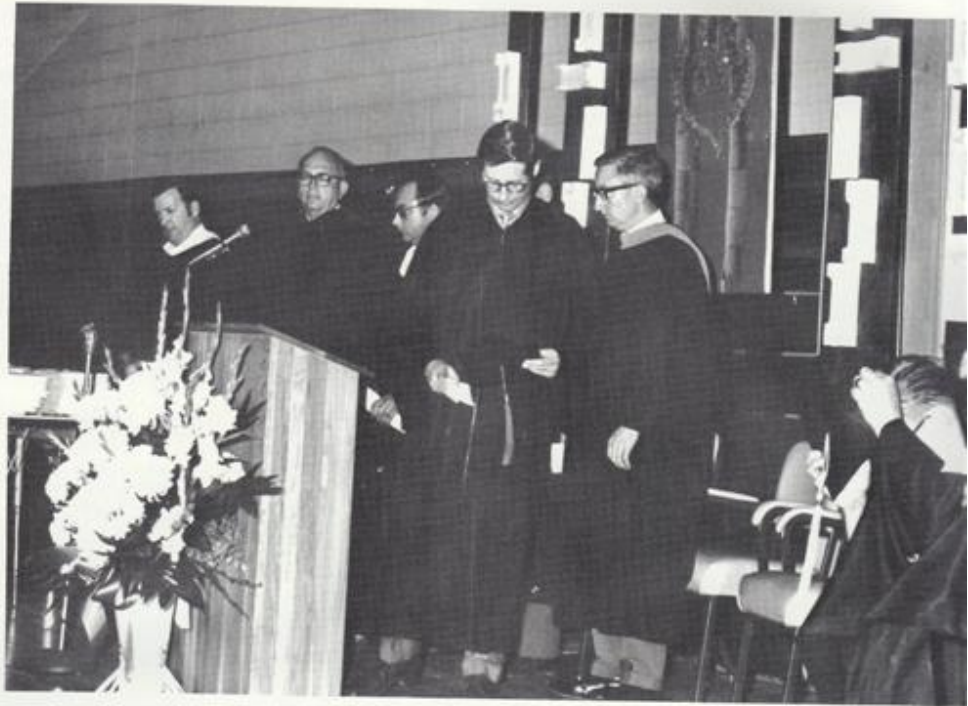

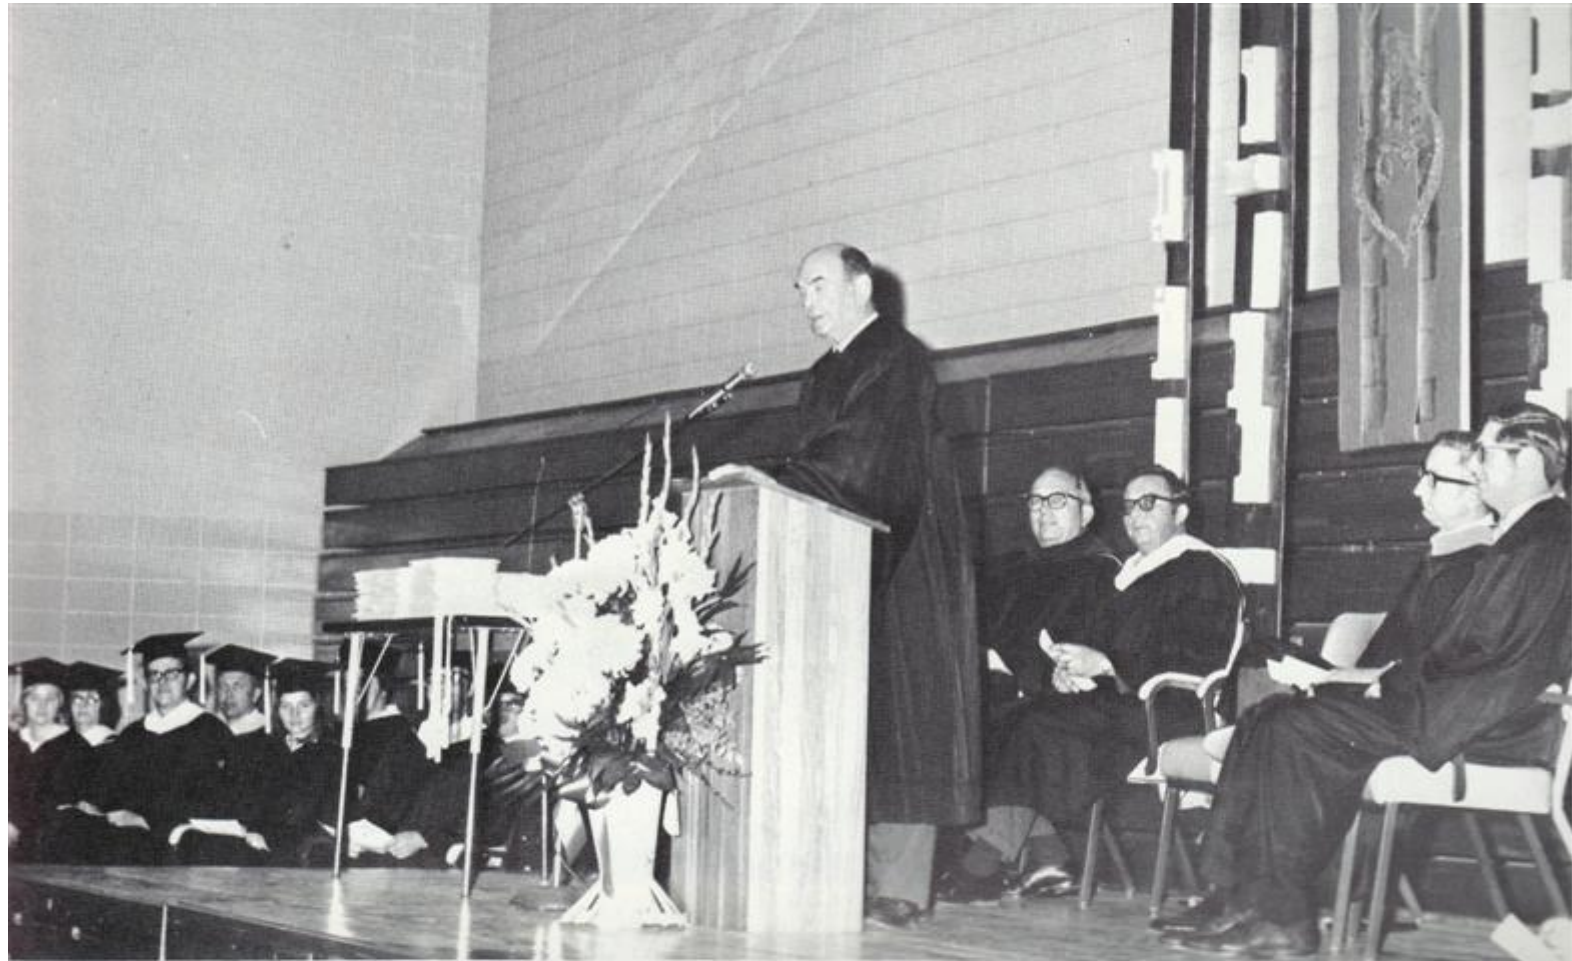

Last minute touches to cap and gown and final reminders to be sure to "keep in step" creates an anxious atmosphere for the 1971 DMACC, Boone Campus graduates. As Dean Stadel and speaker Gordon Gammack lead the procession, surely the graduates are recalling "other days" on the Boone Campus.

AS THEY SPEAK, WE LISTEN

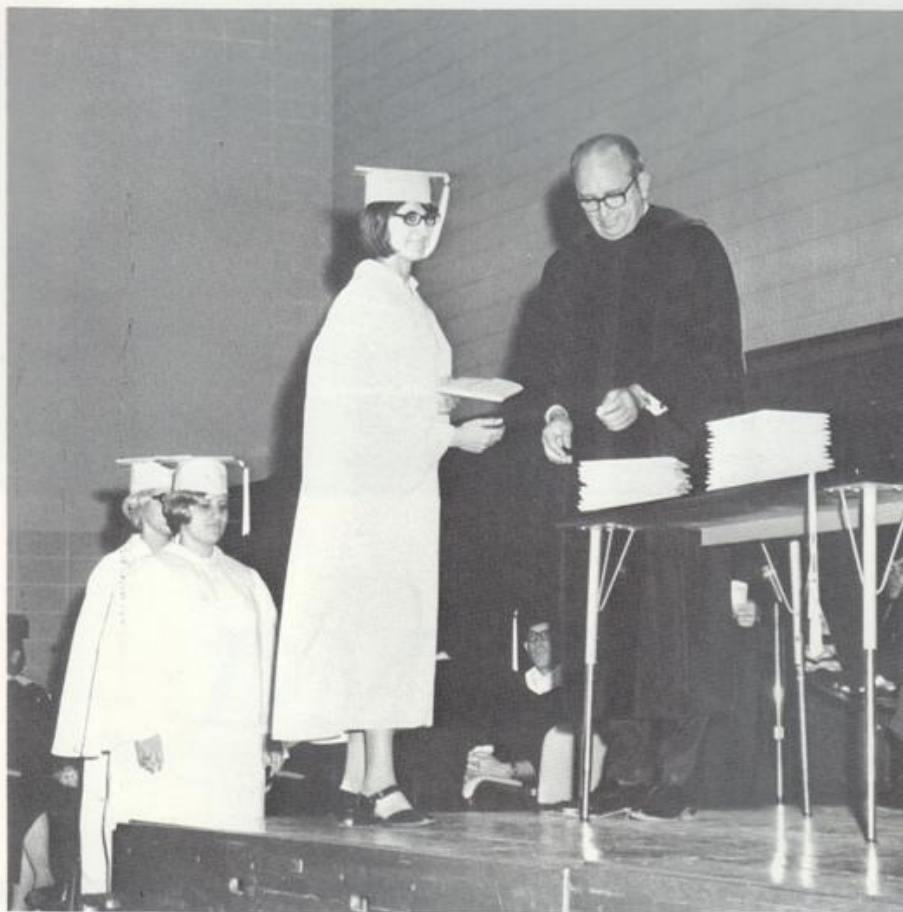

The Reverend Dean Dixon, a Boone Campus student gives the Invocation for his fellow students. BELOW, the Superintendent of the Des Moines Area College, Mr. Paul Lowery, introduces the commencement speaker, Mr. Gordon Gammack. ABOVE RIGHT, we see Mr. Gammack tell of his job as a correspondent and his many trips to war zones. The big moment at last...Dr. Emil Stadel, Dean of the Boone Campus School, presents the 1971 graduates.

Valedictorian, Ramona Fisher, receives the Slosson Scholarship Award as the top student in the 1971 class and the Throngren Social Science award for outstanding work in that area from Mr. Bill Hodges, Director of Student Personnel. The graduates were presented their diplomas by Mr. Roland Grefe, President of the DMACC Board of Directors.

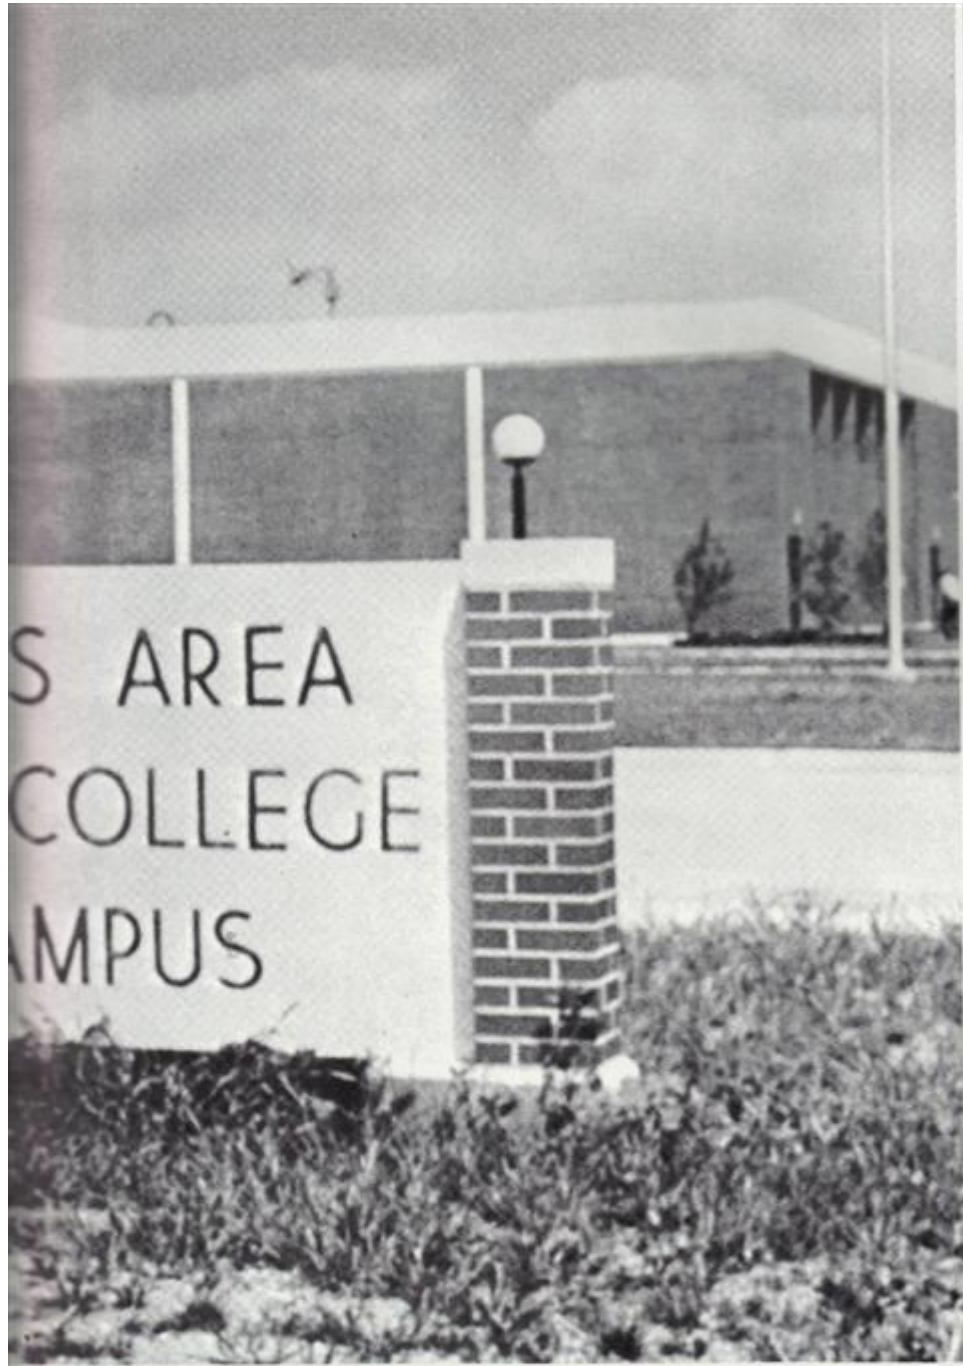

Graduation is a beginning and an ending. The Community College offers opportunities for a terminal education in programs such as LPN training and secretarial. But it also may be a "jumping off point" for those who wish to continue their study at a university. Truly, the Community College has a place in the progressive educational systems of today.

IN MEMORIAM

VIRGINIA K. MALLAS
Nov. 20, 1925 - Sept. 17, 1970

Virginia Mallas, a resident of Minburn, was a student at our school when she died as a result of a car accident. To her we dedicate this book. The quote is one of her favorites.

...A little learning is a dangerous thing;
Drink deep, or taste not the Pierian spring:
There shallow draughts intoxicate the brain,
And drinking largely sobers us again.
Fired at first sight with what the Muse imparts,
In fearless youth we tempt the heights of arts,
While from the bounded level of our own mind
Short views we take, nor see the lengths behind;
But more advanc'd, behold with strange surprise
New distant scenes of endless science rise!
So pleas'd at first the tow'ring Alps we try,
Mount o'er the vales, and seem to tread the sky;
And the first clouds and mountains seem the last:
But, those attain'd, we tremble to survey
the growing labors of the lengthen'd way,
Th' increasing prospect tires our wandering eyes,
Hills peep o'er hills, and Alps on Alps arise!
